The North Street

Speak Gently.

Is there any thing to be gained
by harsh words? Then why do we
ever allow them to escape our lips?
A harsh word may drive some soul
to despair. Have you ever felt
the hot blood rush to your cheeks
and tears unbidden start because
some one had spoken harshly of
you or your relatives or friends?
If you have not you cannot realize
what it means. See that poor
mother as she sits with her head
buried in her hands and hear the
heavy sobs that seem to penetrate
her very being, while the tears are
 coursing down her cheeks; but why
is she so troubled, she is such a
good woman no one could possibly
speak harsh to her? Ah no, but
did you hear those harsh words
which were spoken about her son?

Don't forget a mother's love,
and remember although the boy
may be wild and reckless, yet
somewhere there is a mother plead-
ing for him and for the sake of her
breaking heart, speak gently. Then
there is the little street urchin who
has never known anything but
cuffs and kicks, can you not speak
a kind word to him and throw a lit-
tle sunlight into his life? He may
be poorly clad and half starved,
and you, no doubt, would not think
him worth your notice, but just try
a kind word and see what the result
will be. So it is throughout our
lives, many pains and heartaches
we may save if we would only stop
and think before we speak and
mold the harsh words which are on
our lips into kind ones.—Ex.

Whatis Man?

Man born of woman is small cab-
bage and a few in a hill. In infan-
cy he is full of colic, paretic and
catnip tea, and in old age he is full
of cuss words and rheumatism. In
his youth his maternal ancestor
taket him across her knee and ex-
tends to him all the sympathy in
her nature with the heel end of her
slipper, and when he is a man
grown he dodgeth the tax collec-
tor and the sheriff the rest of his
life. He spreadeth like a camphor
tree, and getteth a political job and
his friends cling to him like sand-
bars to your pants legs. He swell-
eth with vanity, and cutteth frozen
water for a time but is melted as
wax in a fire at the next conven-
tion and east in the ash barrel
where his name is Dennis. Out of
office and his friends forget to
cling to him like a vine around a
rotten stump and he soon goeth
busted, which makes him lie down
in the cow pasture where the red
bugs get in his hair and beneath
his underclothing. He dieth out
of the world, and goeth to a place
too warm to wear clothes. Verily
the last end of that man is worse
than the beginning, and the hand
playeth a "Hot time in the old
town."—Ex.

A young man was arrested in
Acworth the other day for passing
a five dollar confederate bill. He
said he got it in Atlanta and didn't
know that it was confederate mon-
ey. After remaining in the lockup
from Saturday until Monday he
was released and told to go and sin
no more.

**BIG STOCK
OF
Dry Goods,
Shoes,
Hats,
Clothing,
Groceries &
Furniture at
The Frank W. Hall Mdse Co.**

Maysville has quarantined
against Gainesville and Bellton.

It seems that Tom Bell, of
Gainesville, has got a congression-
al bee in his hat.

The town of Homer has quar-
antined against all points infected
with small pox and the reunion of
the confederate veterans which was
to have taken place there on the
9th has been postponed.

Editor Peck, of the Madison-
ville, Tenn., New Era, is evidently
very fond of war. He was mus-
tered out of service only a few
months ago and is now going to
onstagain and go to the Philip-
pines.

The South has more natural in-
ducements to offer to manufac-
turers than any section of the coun-
try. A mild climate, good water-
power, cheap fuel, a moderate cost
for living, satisfied laborers, and a
conservative people.

The grand jury has indicted
James D. Gwaltney, county school
commissioner, of Floyd, on a
charge of seduction. He was ar-
rested some time ago on a warrant
sworn out by the father of Miss
McKenzie, the girl in the case. The
matter never came to trial. It was
rumored that the case was com-
promised for a money considera-
tion.

It is related that a Georgia ed-
itor received the following missive
from a delinquent subscriber: "If
you say another word in your pa-
per about the money I owe you I
will come to town and make the
devil out of you." The editor re-
plied: "Come along and do it. My
wife says, I've had the devil in
my ears and if you can succeed in
getting him out, perhaps there'll be
peace in the family afterwards."

Six tramps—4 whites and two
colored, made a raid on Lula one
day last week, stealing everything
they could put their hands on,
endeavored to escape but were
captured by blood hounds and
landed in Hall county jail.

Some days ago a negro woman
was up before Mayor Gaston of
Gainesville, who was trying to
keep from being vaccinated. She
was fined \$10 and cost besides be-
ing vaccinated. It is reported now
that she is very sick.

We have heard of corners on
meat but the idea of cornering
cattle on the hoof out on the wes-
tern ranches is rather a novel one.
This plan ranks with the one to
secure control of all the rice lands
in the Carolinas, and both are in
the nature of trusts, and bode no
good to the public.

The Banks county Journal says:
Judge Hill went into Poplar
Springs district, to Lula and to
Bellton on a mission as to the pre-
vention of the spread of smallpox
in those communities the other
day. He saw men going about
their daily avocations actually with
scabs on their faces, expecting to
break out at any time. There are
numbers of cases in Banks county
on the line, some in the Dodd set-
tlement.

One night last week a disguised
mob went to the house of farmer
Cunnard in Jasper county where
three Mormons were going to hold
services and escorted them out of
the county. Mr. Cunnard inter-
fered by firing at the mob with his
shot gun when it was returned by
the mob resulting in one side of
his wife's face being shot off. The
Mormons were injured but very
little, but told that they must not
return to that county any more.

The Human Family.

The human family is a very
large one, and consists of people
of variegated complexions, sizes
and sexes, a large number of them
being babies. There is as much di-
versity in human beings as in fish-
es of the sea or fowls of the air.
Some folks are like minnows and
sprats, they count in quantity but
are no account in quality. Some
are like the electric eel, whose pow-
er is felt as soon as approached.
Others like the shark are inclined
to grab and appropriate every
thing in reach. Some like whales
disposed to blubber and spout.
Some are large physically but fee-
ble in mind, their greatness is in
their avoirdupois. Some men are
as dull as donkeys and as solemn
as fence posts around a graveyard,
and they seldom get interested in
anything except in eating, sleeping
and wearing clothes. Such people
are cyphers, mere cumberers of
the ground. Some are fat, others
are lean, some are tall, others
short, or in other words tall, small
and stumpy. Some are genial and
warm hearted, whose smiles illu-
minate all around with joy and
whose touch is like an electric
shock of gladness; while others are
cold, selfish and formal and desti-
tute of natural affection.—Ex.

A Wicked Editor.

We have found another wicked
editor, but have come to the con-
clusion that he must have been
publishing a county paper while on
this mundane sphere, and there-
fore should be excused for exhibit-
ing at the torture of his delinquent
subscribers, of which country pa-
pers generally have more than
others. One of our exchanges tells
this:

An editor who died of starvation
was being escorted to heaven by an
angel who had been sent for that
purpose.

"May I look at the other place
before I ascend to the eternal hap-
piness?"
"Easy."

So they went below and skim-
mished around, taking in the sights.
The angel lost track of the editor,
and went around hades to look him
up. He found him by a big furnace
fanning himself and gazing with
rapture upon a lot of people in the
fire. There was a sign on the fur-
nace which read "delinquent sub-
scribers."

"You go on," said the editor, "I
am not coming. This is heaven
enough for me."

The little state of Rhode Island
has just completed a \$4,000,000
state house at Providence, which
building is destined to be a hand-
some advertisement of Georgia's
resources, as it is built of Georgia
marble, Georgia granite and Geo-
rgia hard wood pine. But the state
has not stopped here, and now pro-
poses to additionally to honor
Georgia by having engraved in a
conspicuous place on the building
a fac simile of the great seal of the
state of Georgia, and the coat of
arms of this state also.

Some forty thousand soldiers
are to be sent to the Philippines to
reinforce General Otis.

THE NUGGET.

DAHLONEGA, JULY 4, '99.

Entered at the Dahlonega, Ga. P. O. as Second Class Matter.

With 65 counties to hear from the increase in taxes is \$3,000,000 over last year.

It is reported that 50 Americans and Mexicans were killed by Indians in Mexico this week.

Gov. Chandler appeals to the people of Georgia to aid him in putting down mob violence.

One new case of small pox developed in Gainesville last week being the first for near three weeks.

The first bale of Texas cotton sold in New York last Monday for \$2,000 for the benefit of the blood sufferers.

The remains of Bob Ingersoll were cremated one day last week and nothing is left of this wonderful man now, except a few ashes.

"There is a hot time in the old town to-night" between Sheriff Monday, the Georgia Cracker and the Eagle, all growing out of the lynching in that city.

The 29th regiment being organized at McPherson by E. H. Hardin, has reached the 300 mark. About 1,000 more men are needed to complete the regiment.

T. L. Robinson, ex-tax collector of Hall county, was found guilty of embezzlement last week and fined \$300 and cost or serve 12 months in the chain gang. A motion has been made for a new trial.

Four negroes attempted to kill Cannon Forbes in Atlanta the other night because this young man and his brothers were supposed to have furnished hounds with which Sam Hose was chased. They waylaid the man at Butler street corner.

More than forty cases of yellow fever in the Soldiers' Home at New Hampton, Va., which, has more than 4,000 old veterans in it. Eight deaths have occurred. Special trains are carrying off the people from that section by the thousands.

At this writing Prof. Ben Hall has not reached Dahlonega with his railroad survey from Gainesville. It comes via. Anarria to the Barlow mine, owned by the parties interested in the road. An effort was made to come up by the Ivey mine but the grade was found to be too heavy to reach Dahlonega that way and the surveyors went back and are moving up the creek and will come into town by John Austins, just beyond the ridge above town doubtless and will locate the depot near the Consolidated Co's store.

The biggest fox hunt of the season will take place up at the foot of Cedar Mountain next Tuesday. The hunters will have about one hundred dogs, being the largest number that were ever together on an occasion of this kind here before. Messrs. White, of Atlanta; Quillian and Redwine, of Hall; Sears and several other gentlemen of White county will compose the party. It is said that Mr. White has 60 well trained hounds. All will meet at Porter Springs Tuesday morning with the intention of having a day race. A fox was caught near the hotel at that place one day last week after little over a two hours run.

Last Tuesday we received by mail an anonymous letter from Anarria for publication touching upon the case of Revolvee Patrick, the negro who was recently caught near that place and is now in Dawson county jail awaiting his trial charged with attempting to outrage Mrs. Sahn some time ago. The writer said that the negroes had threatened to kill the white people just as they come to them if he hung. If Revolvee is guilty of the crime let him suffer the penalty and let any of the negroes wish to interfere let them use their own pleasure about it. It is a free country and everybody can do as they please provided they please to do right.

Mining Notes.

We don't believe there is any thing of special interest for us to report this week in the mining industry. All the mills are moving on full time with satisfactory results while the work on those in course of construction is moving forward as rapidly as possible. We believe too there is a mine being developed which we have not mentioned heretofore. It is, on what is known as Willow Branch in Martins Ford district, on property belonging to W. P. Thomas. The vein has been opened and shows up well, being on the Big Joe and Calhoun lead and is only one mile from the railroad survey. A large amount of asbestos has also been discovered on the property.

Since the above has been in type D. T. Harris has visited our sanctum and given us a mining note of interest. Mr. Harris is superintendent of the Big Joe and also owns a fourth interest in the same. But little has been done at this mine for some time on account of working down to the water and being unable to proceed farther profitably without the addition of new machinery. This they could not do until the members of the company made an examination to determine what was necessary to be done. One of the company was out of the state detained on business while another was sick, preventing an earlier meeting than this week. Tuesday they all got together and decided how to proceed. Among other things is to put in a concentrator and go to mining right.

It will be seen by reference to our columns this week that another charter is being asked for by parties who wish to be granted the right to buy, lease, sell real estate and dig for gold and other minerals in Lumpkin county under the name and style of "The Crown Mountain Gold Mining and Milling Co., capital to be employed by said corporation to be two millions of dollars to be divided into shares of \$100.00 each. The petitioner are J. F. Moore, John Huff, J. B. Clements, J. H. Moore, and W. W. Murray, with principal office in Dahlonega. No work to be done until the entire amount is actually paid in either in cash or property. One object of the petitioners is to get things in shape so as put water on Crown Mountain, near the cemetery in plain view of Dahlonega, and work the same for gold. This property has thoroughly been tested and found to be very rich. Near 1,000 feet of tunnel have been cut at different points in the mountain, and in addition a number of large quartz veins have been opened on the belt. One vein is more than 200 feet wide and 100 feet thick at the center of the mountain and enough free millage ore practically in sight to run a large stamp mill for years and years.

Mr. F. S. Packard, of Sturges, Mich., was in to see us Wednesday last and as usual has his pockets full of rich nuggets taken from the celebrated Turkey Hill property which he owns, located a few miles below Dahlonega. Mr. Packard will likely remain some time as he has an experienced prospector opening up some veins so to interest parties who may wish to engage in the mining industry with him. Many rich discoveries have already been made on this property but the owner is by this like he is in selling goods, wishes to show the customer what he has. This property is known by all our miners to be among the richest in the county.

J. C. Stargel has sold something over \$23 worth of vegetables from his garden this year, which is not quite half an acre. This shows that a good garden is very profitable. Most of our farmers are cultivating too much ground. If they would reduce their acreage and fertilize it more it would produce better and require less labor as has been demonstrated by this garden.

Boyd Gurley is sick with fever.

The following preachers will attend the Dahlonega camp meeting besides the resident ministers: W. R. Stilwell, of Ellijay; Tom Koke Hughes and Z. Speer, of Blairsville; A. A. Sullivan, of Cleveland, and Wallace Rogers, of Clayton.

The sheriff sold no property last Tuesday as the sale of that advertised was postponed.

Ayer's Hair Vigor
What does it do?
It causes the oil glands in the skin to become more active, making the hair soft and glossy, precisely as nature intended.
It cleanses the scalp from dandruff and thus removes one of the great causes of baldness.
It makes a better circulation in the scalp and stops the hair from coming out.
It Prevents and It Cures Baldness

Ayer's Hair Vigor will surely make hair grow on bald heads, provided only there is any life remaining in the hair bulbs.
It restores color to gray or white hair. It does not do this in a moment, as will a hair dye; but in a short time the gray color of age gradually disappears and the darker color of youth takes its place.
Would you like a copy of our book on the Hair and Scalp? It is free.
If you do not obtain all the benefits you expect from the use of the Vigor write the Doctor about it.
Address, DR. J. C. AYER, Lowell, Mass.

The Coming of Baby
brings joy or pain. It's for the mother to decide. With good health and a strong womanly organism, motherhood but adds to a woman's attractiveness.

McLELLAN'S Wine of Cardui

takes away all troubles by strengthening the vital organs. It fits a mother for baby's coming. By revitalizing the nerve centres it has brought chubby, growing youngsters to thousands of weak women who feared they were barren. It purifies, builds, regulates and strengthens, and is good for all women at all times. No druggist would be without it. \$1.00.
For advice in cases requiring special directions, address, giving symptoms, "The Ladies' Advisory Department," The Chattanooga Medicine Co., Chattanooga, Tenn.

MRS. LOUISA HALE, of Jefferson, Ga., says:—"When I first took Wine of Cardui I had been married three years, but could not have any children. Nine months later I had a fine girl baby."

J. C. Stargel has sold something over \$23 worth of vegetables from his garden this year, which is not quite half an acre. This shows that a good garden is very profitable. Most of our farmers are cultivating too much ground. If they would reduce their acreage and fertilize it more it would produce better and require less labor as has been demonstrated by this garden.

Col. Price has been absent several days in Gainesville and Atlanta this week with J. W. Adams, president of the Dahlonega Railroad Co., securing some rights of way for the road. Col. Price returned home Tuesday and Mr. Adams remained in Gainesville long enough to arrange with the city where the road passes through or acrosses a fine street.

Deafness Cannot be Cured

by local application, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube gets inflamed you have a humming sound or imperfect hearing, and when it is entirely closed deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition hearing will be destroyed forever. Nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness caused by catarrh that cannot be cured by Hall Catarrh Cure. Send for circulars, free.
F. J. CHENEY & CO., Toledo, O. Sold by Druggists, 75c.
Hall's Family Pills are the best.

APPLICATION FOR CHARTER.

Georgia, Lumpkin County:
To the Superior Court of said county: The petition of J. F. Moore, John Huff, Joseph B. Clements and J. H. Moore, of the town of Dahlonega and state of Georgia, and W. W. Murray, of Huntington, Tenn., respectfully shows:

1. That they desire for themselves, their associates, successors and assigns, to be incorporated under the name and style of "The Crown Mountain Gold Mining and Milling Company."
2. The amount of capital to be employed by said corporation to be the sum of Two Millions Dollars all of which is to be actually paid in either in money or property before beginning business. Said stock to be divided into shares of the par value of one hundred dollars each.
3. The principal office of said corporation shall be at Dahlonega, Lumpkin county, Georgia, but petitioners pray for the privilege of establishing branch offices at such other points in the state of Georgia as the said corporation may see advisable.
4. Petitioners pray to be incorporated for the term of twenty years with the privilege of renewal at the expiration of said term.
5. The object of the incorporation is pecuniary gain for its stockholders thereof and the business proposed to be carried on by it is the operating and mining for gold, silver and other precious minerals and metals.
6. Petitioners pray that they may be incorporated for the purposes above indicated, and granted the right to buy, lease, rent, hold and sell real estate and mining and milling properties; to erect mills and other machinery for the reduction of gold and other minerals or metallic ores; to construct canals, ditches or flume lines. To issue bonds and other evidences of debt; sue and to be sued; have and to use a common seal and generally to have and to exercise such powers and of the purposes of said corporation.

Wherefore petitioners pray to be made a body corporate under the name and style aforesaid, and that a charter be granted them conferring the rights, privileges and powers herein set forth and petitioned for.
J. H. Moore,
Attorney for Petitioners.
Filed in office August 1, 1899.
G. C. WALLACE, C. S. C.
Georgia, Lumpkin county.
J. G. C. Wallace, clerk of the Superior court of Lumpkin county, do certify that the foregoing is a true copy of the original application for charter of "The Crown Mountain Gold Mining and Milling Company," now of file in my office.
Witness my official signature this Aug. 1, 1899.
G. C. WALLACE,
clerk Superior court.

An Uncertain Future
There is no disease more uncertain in its nature than dyspepsia. Physicians say that the symptoms of no two cases agree, it is therefore most difficult to make a correct diagnosis. No matter how severe, or under what disguise dyspepsia attacks you, Brown's Iron Bitters will cure it. Available in all diseases of the stomach, blood and nerves. Brown's Iron Bitters is sold by all druggists.
Georgia—Lumpkin County:
Nancy L. Graham, having applied to me for the setting up to her of a twelve month support out of the estate of John B. Graham, late of said county, deceased, and the return of appraisers setting up the same being of file in my office. All persons concerned are hereby notified that I will pass upon the same at my office in Dahlonega, Ga., on the 7th day of August 1899, at 10 o'clock, a. m. This July 6, 1899. W. H. C. True, Ordinary.

YOUR ATTENTION
IS CALLED TO
M. G. HEAD'S
LARGE STOCK OF
Dry Goods, Shoes, Hats,
Groceries, etc.,
Store Room in Burnside House.
Who solicits a share of your patronage. Prices reasonable.

Arveter Sullans, was bound over yesterday, charged with stilling.

WANTED.—By B. R. Meaders 40 cords of oak and hickory wood. Call at once if you desire the contract.

You will find at the Consolidated Commissary tents. Also lunch baskets, sugar buckets and nice canned kraut.

Chickens have been bringing from five to fifteen cents here for some time, but this week they seem to be a little dull.

Irish potatoes are now retailing at \$1.00 per bushel, being the highest they have ever been here for years and years.

J. F. Castleberry, the present occupant of the Hall House, has rented the Burnside House and will take charge the 15th inst.

W. M. Adams, of Atlanta, and R. T. Camp, of Stenbanville, O., were among the guests at the Hall House yesterday.

Mrs. Wm. King has purchased a town lot across the ridge near Mrs. Reese's from G. McGuire and will take a house on the same.

Col. Bell and ordinary Kinsey were over from Hiwassee Tuesday to see Col. Charters concerning issuing bonds to build a court house.

B. G. Parks, a late graduate of Dahlonega college was here this week. He has been elected principal of the school at Clarksville.

Mr. Livingston, a mechanic from Colorado, who has been at work here for some time, went to meet his wife in Gainesville yesterday.

Ex-Sheriff Brown, of White county, was down Tuesday and stated that they had one new case of small pox up there—another negro.

There was another wedding in Hightower district last Sunday, being Miss Susie, daughter of Johnnie Gaddis, who was wedded to Erskin Rider.

We have purchased a lot and will build near the Public Spring where we will continue to turn out Nuggets, raise fish and look after the hog pound.

Mrs. Armenia Weaver died at the Ralston mine last Sunday and was buried at Auraria the next day. The deceased was the wife of Noel Weaver and aged 45.

Our enterprising colored friends are keeping up their end of the row in the building of houses. Several have already built while others are receiving lumber and making preparations to do so.

M. G. Head has sold his stock of goods and rented his store room to J. M. Brooksher, to take effect about first of September. The store of Brooksher & Chapman at Jay will be discontinued and the goods moved to Dahlonega.

If you wish any laundry done up in style leave or send the articles to the store of the Hall Mide Company who have recently been appointed agents for the Gainesville Steam Laundry. Articles left there on Mondays will be sent off and returned ready for delivery Saturdays.

J. H. McKee, of Dawson county came up this week and bought a town lot on Park street near W. S. Huffs on which he will build a dwelling right away. W. J. Bart will buy a lot on the same street. Mr. McKee has bought H. D. Gurleys stock of goods and do business at his stand, beginning first of next month.

Mr. Henley, who went to market last week, purchased the largest lot of stoves, ranges and heaters ever brought to this market which are now being received. Also has a large lot of safes, center tables, bed springs and mattresses from the cheapest to the best. All to be found at Halls. Call and examine them and see the other new goods that have just reached here.

The price of Dahlonega's real estate is advancing rapidly.

It is rumored that Dahlonega is to have another shoe shop soon.

When our friends come to town they will please give the news of their section.

The public schools throughout the county are all reported to be in a flourishing condition.

Our sidewalks during the rainy season reminds us of Atlanta's depot which has been under water so long.

Great crowds are flocking here to see the mines. Some ride while others foot it, somewhat resembling Cox's army.

Parties owning real estate here should not raise their sights too high. Give purchasers a chance to move in and help build up the town.

Wm. Wacaster living near New Bridge, is 71 years old and has 71 grand children and 21 great grand children. He is a very stout old man and works in the mines every day.

When you see a male and female sit for some time and exchange smiles you may know that it means a wedding is going to take place. This exchange of lovingness has been going on in Dahlonega.

R. C. Thomson has purchased the house and lot on the Cooper Gap road from Mrs. Frank W. Hall and will erect a large and commodious residence on the same at once.

Where they are framing the chlorination plant near the colored Baptist church for the Hand, the timbermen cover a larger space of ground than the public square of Dahlonega, and more lumber than was ever seen before at one place in this county.

This time last year green beans could not be sold at any price scarcely. Now they are selling at 80 cents per bushel and other produce brings fair prices. Many of the farmers may not be getting any money direct from the mining operations but this proves that they are being benefited.

No doubt there is a hundred or so pennyweights of gold in the rock foundation of the chlorination plant down at the Hand. The other day one of the masons while breaking a rock discovered so much gold in it that it was decided to be more profitable to keep and run it through the mill than to put the stone under it.

John Ricketts, residing a few miles above Dahlonega, has had unusually bad luck this week. He has lost both a fine colt and a horse v alued at \$125. Monday the colt was found dead in the pasture and Tuesday morning when he went to look about his horse he also found it dead within a few steps of where the colt died. The cause of their death is not known.

This loss in a single week is pretty heavy on a poor man. His horse was a little sick Monday while in town but had got better.

One day last week while yo editor and F. V. Moose were standing talking on the public square this old miner stooped down and picked up a nice particle of gold which had been uncovered by the rain. Virge never casts his eyes upward like a country editor is why he is always finding gold. Maybe if we are not rewarded with yellow metal here below that there will be better times for us above when we shuffle off this mortal coil. The thought of such a thing keeps us in good heart.

Meeting begins at the Dahlonega camp ground next Monday and will continue for a week. People who attend these meetings now go there for different purposes—some for rest, some to see and be seen, some to court and a few in the interest of the cause for which they were first organized but of late have been turned into a kind of a frolic by most young people and even some of the older ones. Now, those who attend this one should see if they can't bring about a change. If you get religion (or think you do) stick to it like a leech and not lose it before the next meeting takes place.

The parsonage is being repaired.

Col. Charters and his wife went this week on a visit to Clarksville and Tallulah Falls.

Mr. Tucker, of Dawsonville was up Monday to rent a hotel but the terms didn't suit him.

We are glad to state that Uncle Fred Boardfield is improving from his recent spell of sickness.

Reubin Whelchel of Maysville, was in Dahlonega last Monday taking in at the sights mines.

It rained the hands out last Friday for half a day, being the first time they have had to lose on account of wet weather this summer.

One day last week a Dahlonega merchant informed us that he took in \$53 by 8 o'clock. It is useless to state that this merchant advertises in the NUGGET.

There was a protracted meeting in progress at the colored church last Sunday and Rev. Sam. Gouldlock will be on hand at the court house next Sunday at 3 o'clock.

All our citizens should remove their keys every time they unlock a door as a number of them have been stolen recently causing a good deal of uneasiness as well as inconvenience to the losers.

Messrs. G. T. McCurdy, R. A. Eidson, C. C. Roberts, W. F. Stewart, John B. Carmichael, D. D. McCurdy and Edgar Guar, of Doraville, DeKalb county, were here Sunday looking over the mines. It was their first visit here and of course everything they saw in this line naturally surprised them. They traveled by wagon and had been out roughing it for a week. They camped a short distance below town and were taken by some to be blockaders, but those tackling them for spirits were very much surprised when learning that they all belonged to the Presbyterian church and didn't use it.

From what we learn mean liquor has been causing some trouble down at the Briar Patch. It is reported that Green Abercrombie while about full of it up to the neck last Friday, went over to Buck Lemlys, his brother-in-law, and said something which displeased the family. Then he went a short distance to Ben Hollifield's where he was followed by some of the Lemlys, among them Tom Lemly. Ben Hollifield said that they could not have any fuss there, when Tom made at Ben with his knife. Ben dodged and picked up a fence rail and killed Tom with it for awhile. So the predictions of the Bible in reference to wars and rumors of wars are coming to pass down that way.

Last Monday a difficulty occurred up at "Smoking" Jim Andersons, a few miles above Dahlonega, between Elias Grizzle and Tilman Davis and his son Floyd, resulting in both the latter being cut in the shoulder and arm by a knife in the hands of Grizzle. Grizzle married a daughter of Uncle Tilman, who it is said by the Davis', whipped his wife on the previous Saturday. It was during a road working and Grizzle was sitting down in a chair at Mr. Anderson's when it is said that Floyd Davis went in with a rock in his hand saying to Grizzle "you have whipped my sister," when he denied it and Floyd threw at Grizzle but the rock missed its aim. Grizzle rose opening his knife and thrust the blade of it into Floyd's shoulder. This caused Uncle Tilman to come forward and he was stabbed twice in one arm. Uncle Tilman and Floyd came to town and had Dr. H. C. Whelchel to dress their wounds, at the same time swearing out two warrants for the defendant—one for stabbing them and the other for wife whipping. Sheriff Davis and Will Rice went up and brought in Grizzle the next morning about daylight who waived examination and made bond during the day. A while before noon Constable Jim Robinson came in and arrested the Davis' on a warrant sworn out by Grizzle, who had their trials and were bound over to the Superior Court and made bond.

B. R. Meaders and Prof. Gailard visited Young Harris this week.

Melons are being hauled here from all adjoining counties except Union.

Francis Gilbert died last Monday in Shoal Creek district of dropsy.

A lot of Porter Springs visitors were down Monday and Tuesday looking over the mines.

Prof. Boyd has moved into his residence recently purchased from A. W. Meaders and is once more a citizen of Dahlonega.

Those of our citizens desiring to keep bardecs will please notify Prof. Stewart—the number wanted and whether mess or table board.

There are numerous persons desiring to move here and open out hotels. John Pitchford, of Gainesville, was in Dahlonega Monday and had an eye cast in this direction.

Hon. Pomp Strickland, of Dawson county, spent a few days in Dahlonega and made it interesting to ye Nugget editor. Mr. Strickland some years ago made us an able senator and we hope to see him some time in the future take the position again.

Pastor Edwards has some cases in Dawson court from which he could not be released; but he has leave of absence to attend court Monday and Friday. He hopes to be at the camp ground by Wednesday. Presiding Elder Cook will be at the meeting during the week.

Next Monday night the council will have to elect a new marshal as Mr. Blackwell says that he will not serve any more. James B. Anderson has been serving during the sickness of Mr. Blackwell but we do not know whether he will be an applicant for a permanent position or not.

Revolve Patrick, the negro who escaped Dawsonville jail and was arrested near Auraria some days ago, was pretty bold for a man charged with an attempt to rape a white lady. Soon after breaking jail he went to mining and when found by the sheriff resisted arrest. When told to hold up his hands by the sheriff he raised his left and jerked out a pistol with his right. He will have his trial next week when court convenes unless Judge Lynch interferes. It has been whispered that the latter would do so.

The coat and umbrella recently stolen from Mr. Hutson, for which the young man Duncan was bound over charged with stealing, has been found. Last Sunday morning some stranger called at Henry Seabolt's, near the Barlow mine and asked if he could leave them there. Mrs. Seabolt took them and started into the house while the man went away. The husband realized that they were dangerous goods to have about the house and would not let them be carried in. So the lady hung them out on the fence. She thinks that she would know the man if she was to see him again.

Last Monday news came to town that "Shotgun" Walker and John Anderson, a son of "Smoking" Jim Anderson, were at a house across Crane's Hill intoxicated and making others so. Marshal Anderson went over and arrested both and fixed the trial to take place that night before mayor pro-tem Ingersoll. John Anderson is accused of having a number of customers here which he supplies with liquor. He put up a collateral security of \$3, being a little scared to appear before the court for fear of being bound over to a higher power. Some of his friends went and tried to enter a plea of guilt but as Capt. Ingersoll had himself seen him with a couple of jugs in a sack out in the outskirts of town preferred the defendant coming before him in person, thinking likely that John had been carrying his jugs on this occasion. So there has been no trial yet. The mayor present is very much opposed to this blockading business.

Capt. Williams' new residence is about completed.

The twin infants of Samuel Anderson died Friday night.

Another new school house is being built in Davis' district.

The Nugget office is the place to get your blank options and deeds. P. E. Castleberry is now clerking at the Consolidated Commissary.

Merchant Gurley is going to build a new residence on the Johnson lot.

R. C. Wood is engaged in cutting a ditch to convey the water to his saw mill site in Crumby's district.

Mrs. D. M. Edwards and Mrs. Lina Boyd visited Dawsonville last week, the latter to see her brother who is sick.

John K. Miney, of Lumpkin county, was bound over last week by Com. Baker, charged with illicit distilling.

M. G. Head has decided to build his dwelling on his lower lot next to the Methodist church instead of the upper one first selected.

It seems to be too much trouble for the Atlanta Journal to give us credit for our locals. Instead they are clipped and marked "specials."

Prof. Stewart attended the big banquet at Macon this week given Col. Hill, the newly elected chancellor of the State University.

L. C. Edwards and Will Weaver wanted to collide Sunday near the colored church but friends interfered and prevented it. Will's fine was \$2 and cost.

We were glad to see Bill Scott in town last Saturday. He has been sick a long time, being the first time he has been in Dahlonega in nine months.

The little two-year-old daughter of J. A. Howard died in Gainesville Wednesday of last week. It was buried in the cemetery at that place but its remains will likely be removed to Dahlonega later on.

Last Saturday Mrs. Jake Sparks and her daughter Miss Mary, were bound over by Squire Allen on a peace warrant sworn out by Miss Nellie Moose. The council cases against them were continued until to-morrow. Each ones bond to keep the peace was \$50.

Used to when people went to church the women all wore common cotton dresses alike. Now it is different. Some of the females have been working for two weeks preparing their rigging for camp meeting, seeing who can look the neatest and show off the best.

J. M. Brooksher, who recently sold out his store house and property near the "Muster Ground" to the Dahlonega C. G. M. Co., is in possession of some property nearer the public square, being the John Rider store house occupied by J. E. McGee, which changed hands last Friday.

Otis Henly of White county who went to North Carolina recently after Dorsey, the murderer, was in Dahlonega last Friday. He says that it is a mistake about Fain being killed in that county the other night. Fain had received an anonymous letter giving him ten days to leave the county else he would be killed, and when Fain's father died the news was circulated that it was the young man and as his life had been threatened it was telephoned to Gainesville that the son had been murdered is the way the error occurred.

Anthony Whelchel, who resides near New Bridge, has one of the most remarkable little two-year-old sons in the whole country. He can dislocate his wrist, thumb and fingers on either hand at pleasure. When his father tells him to break his wrist he will give his arm a sling and down his hand will drop. His thumb and fingers are dislocated in the same manner. The first time he was noticed doing this was one day sometime back when he came up to his father and said, "Loot a here pa!" and commenced throwing his arm and fingers out of joint.

At Halls you will find all kinds, sizes and shaped baskets from 25 cents up to \$3.

Preacher Edwards has been eating new sweet potatoes whenever he wanted them since the middle of last week.

Remember when you see a cross mark on your paper that you had better begin making new arrangements else you will not read it any more unless you borrow.

We are informed that some railroad men came up last week and paid Hutch Wimpy \$85 for the damages he recently sustained at Gainesville by the Southern.

The comptroller in receipting our tax receiver for his digest ends it as follows: "The same is properly made out. I congratulate you and your tax payers on the increase over 1898."

A row occurred at Mary Ann Dowdy's a few miles above Dahlonega one night last week between Charlie Anderson and Bad Blackwell resulting in the latter being struck on the head with a rock.

There are two persons in Dahlonega that won't speak to us now. We feel very confident that we are being prayed for by them according to the instructions of the Bible as our subscription list is growing very rapidly.

This week Mr. Woodson, the electrician, received a written notice from Capt. H. D. Ingersoll, president of the Telephone Co., that the line from here to Gainesville worked all right and gave entire satisfaction, and Mr. Woodson left for his home in Atlanta.

A Mr. Suddeth was up from Jackson county to see if he could get enough sawing to do to justify him in moving his mill here last week but found that there were enough here already unless they could furnish dressed dried lumber. Most of this kind is being hauled from Gainesville now—even window frames.

Last Saturday night Abe Anderson and his wife had a little misunderstanding which resulted in the woman using her mouth in such a manner and tone as to convince her neighbors that she didn't have the lock jaw. It was thought by some that Abe was either breaking or removing one of her ribs.

The tax digest shows an increase of \$6,116 in city property since last year. Amount of city property returned for 1898, \$89,165; for 1899, \$95,281. Colored city property for 1898, \$95; for 1899, \$1,615. This was included in the first miles in Dahlonega are richer than they were last year.

A member of the colored Methodist church allowed some strange darkies who had no place to sleep the other night, to take up quarters in the church house. During the night they got lonesome and one commenced playing a fiddle in order to pass off the time. The next day the pastor kicked about it and said some loud words.

From what a fellow said the other day he bought a pint of liquor from a man in town who, up till recently has been above suspicion because every time he sits on the grand jury he favors finding a true bill against every man and woman who sell it. He charges 40 cents a pint for his white blockaders do not get much more than half this much for theirs.

Last week F. G. Thomson received a pair of dogs from the north which cost him \$250. We have forgotten what kind but know that they are the finest ever brought to this country and are very useful as they will protect women and children and are the very kind needed in the South where women are being so frequently outraged by negroes. Mr. Thomson says that he is going to start a kennel here later on. This is a move in the right direction. Let us have plenty of these useful dogs. Every man should have one so as to protect his wife and daughters from the outrages that are being committed in the South nearly every day.

His Musical Ribs.

There appeared recently a newspaper story about a man with a musical heart—a heart that found time, while pumping its owners blood about, to play like a church organ of a violin. Since this announcement was made Eddie Warp, a Norristown (Pa.) who carries bobbins in one of the mills there, has announced through the Philadelphia Record that he has a set of ribs that he will match against this heart at any time. Eddie is very thin and his ribs protrude distinctly. The latest music is drawn from them in the following manner: The boys sit down and tuck his shirt up about his neck. He takes in each hand an empty bobbin and draws a long breath, which throws the ribs into greatest prominence. With the bobbins he then plays on them as ordinary musicians play on xylophones, extracting the tune from the right-side ribs and the accompaniment from the left-side ones. The upper ribs give the high notes and the lower ones the low notes. E is the key of the first or top-most rib, and F is that at the bottom, though Eddie Warp, by stopping off a rib with his fingers, as violinists stop off a string, can raise or lower the pitch greatly.

An Idle Boy.

We pity the boy whose father is rich enough and foolish enough to allow him to grow up in idleness; for, no matter what his native endowments may be, he is sure to be hurt almost beyond remedy by such criminal indulgence. An idle boy is likely to turn out a trifling man. The cardinal virtues of industry and self-denial must be acquired, if at all, in early life. There are exceptions to the rule, but they are so few in number that they do not count. Once in awhile we find even a poor man, struggling day and night for the means to keep up his family, and yet through mistaken affection, suffering his sons to lounge about in good clothes and spend money which ought to go to pay his just debts. What shall we say of him, except that he needs a guardian? And of his sons, except that they need a father?—Nashville Christian Advocate.

The "beatnik" swimmer of all of 'em is now being worked on the northern part of Indiana. A man in the garb of a minister calls at the home of a well-to-do farmer, wins the hearts of the family, and reluctantly accepts a hardpressed invitation to remain over night. In the evening, just as the preacher is finishing prayer, a knock is heard at the door, and a young man, with an apparently blushing bride on his arm, asks if Brother So-and-so is here. The couple is then ushered in, and through the hospitality of the farmer, the knot is tied at once. The farmer is then asked to sign the marriage certificate simply as a witness. Later the farmer discovers that he has signed a note.—Tipton (Ind.) Advocate.

**BIG STOCK
OF
Dry Goods,
Shoes,
Hats,
Clothing,
Groceries &
Furniture at
The Frank W. Hall Mdse Co.**

Col. J. O. Adams, who used to go to college in Dahlonega, is going to run for the legislature in Hall county.

The street car strikers in Cleveland, Ohio, seem to be on the war path, as they commenced using dynamite as soon as the troops left.

The fastest bicycle riding on record was recently made by T. A. Edge of London who made 1,000 miles in 92 hours and 44 minutes over a common pike road.

Refinement is more a spirit than an accomplishment. All the books of etiquette that have been written cannot make a person refined. True refinement springs from a gentle, unselfish heart. Without a refined spirit a refined life is impossible.

The Georgia troops are invited to New York to take part in the celebration on Dewey's arrival. There will be a good deal of useless time and money spent on this occasion. The privates who did the work are never noticed or even thought of.

A few drops of lemon squeezed into water in which the face is washed removes all greasiness and leaves the skin velvety. If the hands are puckered and uncomfortable from washing dishes or clothes, rub them with a piece of lemon. It will make them smooth and add a pleasant odor to them.

A Triplett, Kansas, girl sent 50 cents to New York to a man who advertised a cure for freckles. This is the advice she received: Remove the freckles carefully with a pocket knife; soak them over night in salt water; then hang up in the smokehouse in a good, strong smoke made of sawdust and slippery elm bark for a week.

Look out For the Children.

It is about time to be thinking of a little more education. The children have been of considerable help during the summer, looking after the chores and odd jobs; now we must do all we can, and perhaps a little more than we feel we ought, to advance their interests.

It is their seeding time; and, to a large extent, we are responsible for their harvest. Help them to put in good seed, and remember that in this age of progress the best field is in the schoolroom.

Even if it does crowd us a little, and maybe necessitate the hiring of an extra hand now and then, better let the boys off. They will help us by and by, and the better for this early work in the schoolroom. We do not want them to fall behind in the competition of life, but to push ahead; and to do so we must help to furnish them with the necessary weapons.—Ex.

The darkest hour in the history of any young man is when he sits down to study how to get money without honestly earning it.—Ex.

It is said that before a woman gets married she knows just what sort of a man she will make of her husband. After she has been married awhile she begins to wonder what sort of a woman her husband is going to make of her.—Ex.

Two crimes of unusual brutality were reported in Georgia last week. One at Albany, where a man is charged with having beaten his wife to death, and the other at Woodbury, where an unknown assassin murdered a negro boy and a negro girl, by shooting them through the head.

Editor McIntosh says: "North Georgians work hard, and live hard and die hard." The former is true; the latter is not so, unless he calls three meals a day on jersey butter and milk, home raised ham, "yaller legged chickens, blood pudding, such sausage, cream cheese, jowl and greens, water ground meal, Johnica cake and venison, bear steak Plymouth Rock eggs, trout and bream, mutton and veal, when and eard, ad infinitum to be found in this section and indigenuous of it. It beats South Georgia sow belly, sorghum and condensed milk.—Dalton Citizen.

Deafness Cannot be Cured

by local application, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube gets inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness caused by catarrh that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

THE NUGGET.

DAHLONEGA, AUGUST 11, '69.
Entered at the Dahlonega, Ga. P. O.
as Second Class Matter.

The yellow fever in Virginia is abating.

Atlanta is going to get a new depot at last.

Nearly fifty persons were killed near Bridgeport, Conn., the other day by a trolley car falling forty feet.

James Williams, a negro deacon was arrested at Americus last week charged with assaulting a six-year-old child.

Ex-Gov. W. Y. Atkinson died at his home at Newnan Tuesday at 9 o'clock. The people of Georgia mourn his loss.

Mayor Woodward of Atlanta has been asked to resign by the city council because he refused to keep his promise and has been drinking again.

The meeting of the leading negro preachers in Birmingham decided that the best thing that could be done for the negro would be to get him back to his native wilds.

Mrs. Sarah Campbell, of Monticello, recently offered a reward for the murderer of her son, thinking that it was done by a negro, but turns out to be her own son who was sent to the penitentiary for killing his brother the other day.

Bro. McNelly, of the Lawrenceville News-Herald, is trying to shape the politics of the 9th congressional district. This is a big undertaking for a man like Mack unless he had more democracy about him.

The contrast between the health of Havana at present, as compared with the same time last year is very great and gives some idea of the benefits the people are deriving under temporary American rule. The number of deaths in Havana for the month of July was 672, against 2,063 for the same month last year.

Jones was dead and a bulletin stating that Thomas Jones, Esq., had departed this life for heaven 12 m., was posted by sympathetic neighbors on the door. A bad boy placed the following notice under that of the neighbor: "Heaven, 12:30 p. m.—Jones not arrived; excitement intense."—Ex.

Western Nebraska, Kansas and Eastern Colorado are just now in the grasp of a grasshopper plague, the worst on record for fifteen years. Crops are being devastated and the farmers are worried by the hordes of the pest, according to reports. In fact, the grasshoppers are doing so much damage that the entomologists of the three states have decided to hold a meeting to devise a plan to combat them.

Two Mormon elders who tried to enter into a controversy with the pastor of the Baptist church in London county, Tennessee, last week were invited to leave and promptly accepted the invitation and are understood to have left that county. Their names could not be learned. The Mormons in this city state that there are about fifty missionaries in the eastern part of the state and a number have been warned to leave the vicinity where they have been operated.

Taylor Hamilton, of Jackson county, was arrested last Monday by Detective Looney and placed in Fulton county jail charged with being one of the parties who lynched St. Smith recently in Hall county jail. Hamilton made a confession, stating that there were nine parties in the mob, four of whom he did not know. He gave the names of Henry Towery, Gainesville's ex-chief; T. L. Bryson, Charles Tanner, Mark Bell and Oliver Bell, but two sons of Judge Bell who Smith killed. Bryson and Tanner have been arrested. The others have not been found.

Mining Notes.

Van Crawford and Charlie Bell are still keeping up steam at the Kentucky stamp mill crushing ore from the celebrated Preacher mine.

Rice, Davis and Hamp still continue work in the placer mines of the Tin Yard at night as they are unable to get the water during the day.

J. F. Castleberry went down to Dawson county recently and secured an option on the Heard water power property seven miles west of Dawsonville.

As many teams as can be used are now engaged down at the Hand getting in rock to keep the large force of hands moving on the foundation of the plant.

Work is still progressing at the pyrites mine in this county under the supervision of Mr. Goode of Atlanta who has some twelve or fourteen hands employed.

A cave caused a little delay down at the Crescent recently but it has all been disposed of and things are moving along all right down that way now making a satisfactory showing.

While Capt. Asbury was in town the other day he showed us a bottle containing quite a quantity of gold which he had panned out from among the grass roots up on Cavender's Creek.

The development work still continues on the Grindle property a few miles above Dahlonega and occasionally a new vein is discovered. The many rich discoveries on this property are showing up well.

It was decided this week to add 32 feet to the foundation of the chlorination plant at the Hand making the entire length 507 feet, six and a half inches. At some places the wall is 25 feet high from the level.

Charles F. Sheldon, who is now located in Gainesville, and is negotiating for some mining property in Italian county, was in Dahlonega this week. He is going to have a few tons hauled here and crushed on Capt. Woodward's mill for a test.

J. L. Burns, superintendent for Dahlonega Co., informs us that he has examined all the bridges and culverts between here and Gainesville so as to get ready to haul up the heavy machinery for the big chlorination plant for the Hand. The heaviest piece weighs twelve tons. The taps on the rods of the

iron bridge will be tightened up and a calculation made to see if it needs any more strengthening.

Mr. Marsland & Jones, who recently purchased four mining lots a few miles above Dahlonega had an assay made from ore taken from one lot alone last week which shows the veins to be rich. The tests were made by Mr. Peacock, the assayer in the employ of the Dahlonega C. G. M. Co., which runs as follows: No. 1, four foot vein in cut, \$10.40; No. 2, 6 foot vein top of ground, \$7.20; No. 3, 18 inches wide, \$26.40; No. 4, sulphuretted, test of free gold alone \$13.40 per ton.

Capt. Hall certainly has some curiosities in the way of gold nuggets. Besides having a perfectly shaped rooster, plow, half moon and various other large size nuggets he has a gold brick weighing 720 pennyweights which is interesting to look at. The rooster weighs about six pennyweights and was found at the Ivey by E. E. Crisson. The Ivey has produced several fine nuggets. We were shown two that were found there by E. V. Moose, one weighing twenty pennyweights and the other twenty one pennyweights and six grains. The first one was discovered last year and the latter recently. Another fine nugget was found at the Bast. The Captain exhibited some fine large ones taken from the Lumsden mine in White county weighing five and twenty pennyweights. One of them resembles a half moon and the other an owl. He also has one taken from the Chestnut weighing twenty-eight pennyweights. It was discovered about one mile below the celebrated Boly Fields vein, supposed to have come from this mine. There has never been a richer mine discovered in this country than the Boly Fields. It was found in the river and you could stand on the bank and easily see the gold in the vein below the water, but it was lost after awhile and no one has ever been able to strike it since, though it has been tried a number of times. But the prettiest thing the Captain has in his samples is a pair of cuff buttons made from quartz taken from the Singleton by J. W. Weaver, polished, showing gold. After the rock was blasted out Mr. Christian Wahl carried enough of it with him north to make two pair of sleeve buttons, giving Mr. Weaver his choice after they were finished. The fragments of this rich ore weighed six ounces from which were taken eight and one-fourth pennyweights of gold and Captain Hall paid \$5.47 for it. Captain Ingersoll also has a nice lot of nuggets but has no chickens, owls and plows among them.

With a hundred inches of water one thousand tons can be mined and milled every twenty-four hours. The cost of mining and milling by hydraulic will not exceed ten cents per ton. The enormous profit can at once be seen. There are fewer elements of doubt and uncertainty in this than is usual in such enterprises. The width of the pay material can easily be measured—the value can be ascertained by pan and amalgamation test and if any one wishing to take a considerable block of the stock desires it a full test of a number of tons will be made without cost. If the judgment of the most experienced and competent hydraulic engineers and miners is worth anything an investment in this stock at present prices is absolutely safe. The projectors of the enterprise believe the stock can and will be made to be worth far more after operations begin.

WILL BUILD THE ROAD.

Electric Rail Way Now an Assured Success.

Electric rail way talk has been very lively for several days past. It now looks like the Dahlonega Railway Company and Mr. D. E. Evans' folks will get together and unite on a proposition which insures both roads.

Mr. J. W. Adams, president of the Dahlonega Railway Company, was here this week talking with the people relative to the road, and he received every encouragement. It is very likely that the two interests will be consolidated and the road built.

The Dahlonega Company is very anxious to secure the Dunlap power on the Chattahoochee river, and it looks like now that the road will run from the Southern depot up Main street as far as the Hunt house, thence out east Oak street to the Seminary, and from that point out Race street through the city park to the Chattahoochee river. This is a very desirable route and it is thought it will be perfectly acceptable to the company.

At the regular meeting of the city council next Thursday night franchises will be granted the street railroad on all the streets of the city. The road will then run

the line over such streets as best suit their purpose.

The city, private parties, manufacturing enterprises and other concerns will take incandescent lights and power and the enterprise is sure to be a success.

As soon as franchises are given and everything is in shape work will begin on the road and thousands of dollars will be turned loose in this section. The enterprise will be of great value to Gainesville and her citizens will do all in their power to help it along.—Georgia Cracker.

At Antioch church, near Woodbury, Ga., the other afternoon Mr. W. O. Evans, a prominent farmer, shot and killed Tom Freeman, colored. He was killed for making some slight remarks about some young ladies.

A GOOD INVESTMENT.

If You Wish to Invest in Mining Now is the Time.

The Crown Mountain and Milling Co. will soon be organized. A limited amount of stock of this company will be placed on the market.

It is to the interest of those wishing stock to subscribe now.

The property of this company consists of nine forty acre lots all of which are gold mines and can be worked from Crown Mountain and a water power of sufficient magnitude at run stamp mills and pumps by electricity.

The company will be capitalized to two millions of dollars (\$2,000,000). It is put at this figure for the reason that most competent and experienced hydraulic engineers give it as their opinion that with 100 inches of water on Crown Mountain a good dividend can be made on this amount.

The price of the stock at the present will be twelve and a half cents on the dollar. The stock at this price will pay for all the property and cover all the estimated cost of putting one hundred inches of water on Crown Mountain, a stamp mill of not less than forty stamps and leave an ample sum for working capital and contingencies.

Mining the sulphate ores by hydraulic methods has heretofore given better results than any other in this district.

Crown Mountain has the greatest altitude—the largest and richest sulphate veins—or leads of any point on the gold belt. It has been and now is considered the center and radiating point of all other gold mines in the Dahlonega district.

The width of the sulphate on this property is between four and five hundred feet. Many assays, pan and mill tests show the material exclusive of quartz veins, and rich shows to be worth more than one dollar per ton.

With a hundred inches of water one thousand tons can be mined and milled every twenty-four hours. The cost of mining and milling by hydraulic will not exceed ten cents per ton. The enormous profit can at once be seen. There are fewer elements of doubt and uncertainty in this than is usual in such enterprises. The width of the pay material can easily be measured—the value can be ascertained by pan and amalgamation test and if any one wishing to take a considerable block of the stock desires it a full test of a number of tons will be made without cost. If the judgment of the most experienced and competent hydraulic engineers and miners is worth anything an investment in this stock at present prices is absolutely safe. The projectors of the enterprise believe the stock can and will be made to be worth far more after operations begin.

The management of the company's mining operation will be in charge of a resident hydraulic mining engineer who has heretofore been successful and whose integrity has never been questioned.

Further information can be had by addressing or calling on J. H. Moore, rear of Moore's store, Dahlonega, Ga.

LUMPKIN SHERIFF'S SALES, Georgia, Lumpkin County.

Will be sold before the court house door in Dahlonega, Lumpkin county, Ga., on the first Tuesday in September 1899, within the legal hours of sale, to the highest bidder for cash, the following property, to-wit:

Lot of land No. 219 in the 14th district and 1st section of Lumpkin county, Georgia. Leveled on as the property of Becky Bishop to satisfy a bill for \$500.00 against the estate of J. A. Ferguson, deceased. Said property is situated in the town of J. A. Ferguson, Lumpkin county, Georgia, lying between the corner of Methodist church and being a part of land lot number 84 in the 14th district and 1st section of Lumpkin county, Georgia, and being one-fourth of an acre more or less, being all that tract of land under fence, and the house and improvements thereon where defendant Adams now resides. Said property levied on as the property of J. A. Ferguson, deceased, to satisfy a bill for \$500.00 against the estate of J. A. Ferguson, deceased. The said J. A. Ferguson vs. the said J. A. Ferguson and heirs, and the said J. A. Ferguson, deceased, returned to by J. C. Williams, Jr., Esq. This Aug. 7, 1899.

J. M. DAVIS, Sheriff.

SMITH & BRO.,

Porter Springs,

Now Have the Largest Stock of

Dry Goods, Clothing,

Hats, Shoes, Groceries, Hardware and General Merchandise

Ever brought to Porter Springs at prices which will certainly suit the purchaser, either for cash or barter.

We will quote a few prices: Best green coffee 9 lbs. for a \$1.00. Good quality 10 lbs. for a \$1.00. A bucket 2 lbs. for 25c. Galvanized Sugar 15 lbs. for a \$1.00. Light brown sugar 17 lbs. for a \$1.00. Lard 12 lbs. for a \$1.00. Everything else in proportion. Call and examine our stock and save money. We mean business. Highest market price paid for country produce. Respectfully,

SMITH & BRO.

TOWN TAX NOTICE.

The town tax book for the year 1899 will be closed on the first day of October next, after which time it first will be closed and all parties not settling before that time.

Respectfully, Council.

G. M. GIBBS, Sec'y.

Your Gold Cured for 50c.
Get Dr. Miles' Laxative Cathartic
Pills. They cure constipation. All druggists.

Put Your
Finger on
Your Pulse

You feel the blood rushing along. But what kind of blood? That is the question. Is it pure blood or impure blood? If the blood is impure then you are weak and languid; your appetite is poor and your digestion is weak. You cannot sleep well and the morning finds you unprepared for the work of the day. Your cheeks are pale and your complexion is sallow. You are troubled with pimples, boils, or some eruption of the skin. Why not purify your blood?

Ayer's Sarsaparilla

will do it. Take it a few days and then put your finger on your pulse again. You can feel the difference. It is stronger and your circulation better. Send for our book on Impure Blood.

If you are afflicted, take Ayer's Pills. They greatly aid the Sarsaparilla, they cure constipation also.

Write to our Doctors.
Write them freely all the particulars in your case. You will receive a prompt reply, without cost. J. C. AYER, Lowell, Mass.

The town continues to grow in population.

If you wish to live in a prosperous town come to Dahlonega.

Our streets and side walks are beginning to present a creditable appearance.

Hughes Moore, who has been down in Alabama for several months returned home last week.

Judge Tate was brought down by Dr. Jones long enough last Monday to transact some official business.

Miss Georgia Howell, formerly of Dahlonega but now of Dalton, was married Thursday of last week to a Mr. Mais.

W. H. Sammer who contracted to build the Bostwick Hall at the college, failed to make the required bond and a Mr. George agreed to take it at the same figures.

Messrs. Peacock and Scott, of Denver, Col., have moved into the Bouds with their families where they will keep house until Mr. Castleberry takes charge of it.

Larmon, who killed Ben Anderson in Dawson county recently was captured in Gilmer county last week. Some of our citizens were down there when they brought him in chained around the neck. A brother of the murdered man was with the parties who captured him.

J. A. Reeves, of Gainesville, was in the city last week enquiring the price of vacant lots which led us to believe that he had an idea of locating in our town. Mr. Reeves was one of the first students that ever entered the college and conducted himself in such a manner as to gain many friends here.

The board of trustees of the N. G. A. College held their annual meeting last Saturday and elected officers. All the old ones were re-elected except Capt. F. W. Hall whose business prevented him from serving as treasurer any longer. H. D. Gurley was elected to this place. Capt. W. J. Worley though absent was re-elected secretary which position he has held for twenty-three years.

During the wet weather the mail carrier from here to Gainesville frequently tied the sacks containing the papers on behind the vehicle out in the rain so as to give the passengers more room on the inside. So if our subscribers fail to get their papers while it is raining they may know the cause. There is no use to complain for Uncle Sam has turned this mail over to the contractor and has nothing to do with it. At least it looks so.

We had the pleasure last week of seeing some gold coin which had been buried on a certain farm in this county for more than thirty-five years. There were between six and seven hundred dollars in the lot. It is now in the possession of Capt. F. W. Hall. The party brought cattle and hogs to town who sold and got the money and buried it in the fall of 1861 where it remained until recent years. It was brought to Capt. Halls and washed off. Some still shows the clay on it. It is very pretty and bright and shows that it was never used much.

Rev. Samuel Goodlock, col., filled his appointment by preaching at the court house last Sunday to a large congregation composed of both white and colored people. The singing class from Hickory Grove was present and furnished some splendid music pleasing all who heard it. The colored brethren are like the white people, scarcely ever have a meeting without taking up a collection. One was taken up on this occasion so as to enable Sam to attend the District Grand Lodge of Odd Fellows which convened at Washington first of the week. Some three or four dollars were collected and the colored men left out on his way soon afterwards rejoicing.

G. H. McGuire is at work on his new dwelling.

The corn crop in this county was never more promising.

Men have been in this county recently buying sheep to ship west.

Valuable real estate is changing hands in Dahlonega nearly every day.

Miss Lizzie Woodruff, was up on a visit this week from Gainesville.

Jap Williams has one of his cottages nearly completed and will soon commence another.

Solicitor Charters went down to Dawsonville on a courting expedition this week.

George Duncan has the contract for building M. G. Heads residence who commenced work on it this week.

Those wishing to escape being bitten by the kissing bug should wear a tallness bonnet, for an uglier looking thing was never made.

G. McGuire gave \$1,000 for the Hughes old stand yesterday and gave up the lease of more than two years which he had on the two lots across the street on the opposite side.

Persons will bear in mind that we only divide the advertising fees of legal matter, that is any sale or notice that is required to be published in papers doing the sheriff's and ordinary's advertising.

It won't be long until the students will return. Then the ministers will have large congregations. Students are forced to attend church which will cause all the girls to go every single time.

The biggest and finest musk melon we have seen this year was raised by Judge Brittain. It weighed 19 pounds. And what makes it more interesting the writer and Col. Price assisted the Judge in eating it.

H. D. Gurley requests us, to say that he is going out of business by the first of next month and desires those owing him either by note or account to come forward and settle at once as he wishes to wind up his business.

F. A. Kennedy, of Ashville, N. C., came in last week to look around for a month or so or maybe longer. Mr. Kennedy owns some real estate in this county and feels an interest in the big boom we are now having.

Three or four parties got hurt down at the Hand in a single day last week, but Dick Dowdy's injuries were greater than any of the others caused by a cave. He was nearly covered up but fortunately his injuries are not believed to be of a serious nature.

Teamsters from Hall, White, Dawson, Cherokee and several other counties are here hauling for the Dahlonega Consolidated Company which shows that it is not only the people of Lumpkin county that are being benefited by this big mining enterprise but to those that live for miles away.

We don't expect that Will Lemly and John Loggins will go out wild turkey hunting contrary to law any more soon without thinking about the scrape they got into recently. Will did not only kill the turkey but put a few shot into John's hand and badly causing him to jump about right lively.

The Consolidated Company has repaired the bridge across the Hand canal with big oak lumber four inches thick so as to hold up the heavy machinery to be shipped from Gainesville. We understand that all the bridges between here and Gainesville will also be repaired and made safe for this purpose.

A gentleman from White county informed us last week that two negroes broke into Dr. Allen's store a few nights ago and carried away some things. One was captured and is now in jail. The post office was kept in the store, but they had sense enough not to bother anything belonging to Uncle Sam.

Capt. Williams has his building about completed.

J. H. Moore is going to enlarge the building on his premises.

Carry your chickens and eggs to Smith & Bro., Porter Springs.

Judge Murray left for his home at Huntington, Tenn., last Sunday.

Arrangements are being made for the construction of more new houses.

It looks like about every other person visiting Dahlonega wants to run a hotel.

It was an error about Shotgun Walker being arrested last week for disorderly conduct.

Call on Smith & Bro. at Porter. They will sell you clothing at and below Gainesville prices.

Ex-marshal Blackwell came out a little too early causing a relapse but we are glad to learn that he is improving again.

There must be a lot of Methodist ministers up at Porter Springs as it takes from 75 to 100 chickens every day.

There are now about 125 visitors at Porter Springs causing every thing to present a lively appearance up that way.

Tin Harris and T. S. Waters, of Gainesville, were in Dahlonega this week with their faces all covered with happy smiles.

Prof. Martin, the newly elected principal of the graded school from Perry, Ga., has arrived ready to commence his duties next month.

Smith & Bro. are coming to the front. They sell 11 pounds of good coffee for \$1.00. They pay cash for their goods and get the discount.

The road case to be tried before Judge Tate was postponed until the next regular court day as he had not recovered sufficiently to preside.

Bud Hulsey, of White was out at Porter Springs last Friday on a fox hunt. Woods White, residing below Atlanta, went up Saturday with a lot of hounds.

Our road officials should bear in mind that Judge Estes is notifying them in other counties that the roads must be all worked out well in this circuit, else there will be trouble.

Some boys created a disturbance last Sunday night up at Concord church. We guess they will regret it as a gentleman was in town the next day seeing how to pursue in the matter.

Harris Postell, who has been confined in jail for some time charged with carrying a pistol, succeeded in making bond last Monday and will be able to take in the camp meeting yet.

I. C. Edwards, one of the mechanics engaged on the wood work of the chlorination plant, cut his foot severely with an adz. Saturday which will render him unable to work for several days.

The row which was reported to have taken place at Mary Ann Dowdy's residence between Charlie Anderson and Bud Blackwell, occurred at Eliza Ann Dowdy's, so the former lady informs us, hence the correction.

Uncle Dick Wheelchel gathered his peach crop last week which was rather small as he only had two, but this is more than any one else has in this country that we have yet heard of. Mr. Wheelchel said he was very much surprised in finding them as he had noticed no blooms in his orchard this year.

Mr. Buttery, who has been here for some months, engaged part of the time in working the street mine, left out the other day for a different clime. During a conversation with Mr. Buttery recently he talked to us like he was interested in a big mine here, but later developments proved that he had no more money than a country editor so we understand that he went away leaving some debts unsettled.

House rent is getting "out of sight" in Dahlonega.

New subscribers for August have commenced coming in to our notion.

J. E. McGee is making an other addition to his house and otherwise improving his premises.

The old drug store has been receiving a touch with the painters brush within the past few days.

Mr. Marion Gwinlin was wedded last Sunday to Miss Mary Jane Lingerfelt in Nimberville district.

Those wishing to secure a contract to haul freight, furnish sand and stone for the Bostwick Hall are requested to meet Mr. W. H. George the contractor, in Dahlonega next Thursday the 17th inst.

It will be seen by a notice elsewhere that the town taxes for the present year must be settled by the first day of October next. Those who have not settled can govern themselves accordingly.

Col. W. P. Price is the only man that is selling his town lots at the same price now that he did before the boom. He says that he does not think it is right to take advantage of the people on this occasion.

At the regular meeting of the council last Monday night J. B. Anderson, who has been serving as marshal for several weeks, was elected permanently at a salary of \$30 per month being an increase of \$10 per month.

We send our papers regularly to subscribers at Murrayville every Friday morning, but still they sometimes fail to reach the house hold of some down there. The trouble is either at the office at Price or Murrayville. Look out.

We didn't go out to camp meeting this week but stayed in our office and whistled an old Cedar Mountain camp meeting tune of "we will meet our friends over there," thinking of how fast the years are passing and the many changes that have taken place, even in the last twelve months.

A. O. Butler, S. R. Bailie and R. L. McCabe, of Chicago, Ill., spent a couple of days in Dahlonega this week inspecting the mining operations being carried on by the Consolidated Company. The first two named gentlemen were never here before. What they saw while here was very interesting to them.

W. A. George, of Atlanta, the contractor who is to build the Bostwick Hall at the college, came up first of the week and made all necessary arrangements for lumber so as to commence work at once. He couldn't make satisfactory arrangements with the brick contractors here and decided to have them made himself. This building when completed will be an elegant one and will be a big addition to our college.

The relatives of F. L. S. Price in Dahlonega have received several letters from him since he reached Manila. He speaks of the climate as being pleasant and healthful if the rules of health were only observed. His regiment has been assigned to Iloilo island. The Lieutenant said that he was on the board which condemned several thousand cans of beef and tomatoes which were thrown overboard, but the natives want them like chickens on June bugs, ate apparently with as much relish as if the goods had all been sound. It made no difference to them.

This week Capt. H. D. Ingersoll received by express a beautiful gold headed cane sent him by Maj. W. S. Bassinger of Athens, who some years ago was a citizen of our town and president of the N. G. A. College. The gift is highly appreciated by the Captain. His name is nicely engraved on the cane as well as the initials of the donor. Every since these gentleman's first acquaintance here some years ago they have been the warmest of friends, although differing widely in politics as one is a strong democrat and the other a republican.

So far for August we have received 15 new subscribers.

Buists fresh turnip seed in bulk at Gurleys. Also a large lot of shellots.

One of our business men speaks of putting up a brick store house at an early.

J. H. Moore is thinking of putting up a dwelling on his vacant lot opposite his residence.

Clarence Holmes, of Tennesse, Ga., is here taking in the camp meeting with his friend F. L. Meaders.

Rev. W. W. Landrum, of the First Baptist church of Atlanta, will preach at the Dahlonega Baptist church next Sunday night.

Dr. Hope, of Atlanta, stopped over a day or so on his return from Porter accompanied by his wife and a Miss Henley last week.

All the carpenters that have yet come to Dahlonega lately have been given employment. There will be an opening for others as soon as the contractor commences on the Bostwick Hall, as well as a number of brick masons.

Mrs. Gelluvia Neal, of Atlanta, came up last Tuesday to spend a few weeks with her relatives, Mr. and Mrs. B. W. Brown. Mrs. Neals husband was killed some three weeks ago in the Excelsior Works of that city leaving her and her four little children with no relatives in this country except Mr. and Mrs. Brown in Dahlonega.

Work was commenced this week on the residence of R. C. Thompson, secretary and treasurer of the Dahlonega C. G. M. Co. It will be located on what is known as the Brown lot on Cooper's Gap road in plain view of town on a high point making it a very desirable location. We are glad to number such gentlemen as Mr. Thompson with the citizens of Dahlonega.

Uncle Dick Anderson, the old colored man who has reached the 80 notch, says the reason that he wore the assafoetida and sulphur around his neck when Dahlonega got a scare at Gainesville's small pox some time ago, was because he is engaged to be married and didn't wish to be scared up with the disease for fear that it would disfigure his looks and the woman would go back on him.

J. J. Hulsey, an old Auraria citizen who moved to Cherokee county some years ago, came in last week and secured a job of hauling for several of his boys, who then subscribed for the Nugget and sent it back home so as to make the rest of the family happy. Jim used to belong to the rock throwers brigade of Auraria, at a time when people down there didn't use any other kind of a weapon during a racket.

This week Miss Belle Therin, of Brunswick, was elected one of the assistant teachers in the graded school by the board. Miss Therin comes highly recommended as a teacher of much experience and no doubt will give entire satisfaction. One more teacher will be elected later on, giving the principal two assistants. There is a large list of applicants to select from and the board is taking its time so as to make a good choice, and start this new institution on the first of next month with an able corps of educators.

Capt. Hall is making some changes on the Hall House which will make it much more convenient, pleasanter and accommodate more guests. The dining room is being enlarged so as to seat three times more people than the present capacity and otherwise improving the premises. There seems to be a big demand for hotels in Dahlonega now. The impression got out that Mr. Castleberry would vacate this hotel and in a few days at least twenty-five persons wanted it. There will be no changes at present in the management of this hotel. Mr. Castleberry will run both the Hall House and Bernside enabling him to accommodate all the guests who may wish to stop with him.

W. H. George will bring his family with him here next week.

Col. J. H. Moore went out to Jasper this week on a short visit.

Hereafter a three months subscription to the Nugget will be 30 cents.

Officers Crawford and Grizzle destroyed an illicit distillery in Dawson county Monday.

The Nugget has no better a friend than Jim Sparks, who recently moved from Dawson. He is doing much towards helping us extend our circulation in that county.

Rev. J. W. Phillips has just returned from Union county where he has been running a protracted meeting at Liberty church for four weeks, resulting in an addition of 40 members to the church.

J. F. Moore was thrown by his horse last Tuesday in front of his store. He was jolted up right sharply but not injured bad enough to keep him from talking about the mines only a short while.

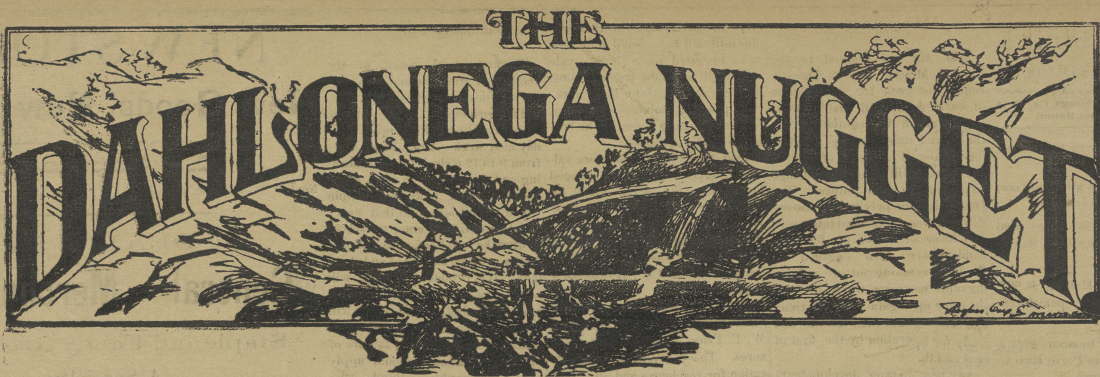

M. G. Head, who returned from Dawsonville Tuesday informs us that Royole Patrick, col., who attempted to rape Mrs. Sam in Dawson county some months ago, was found guilty and sentenced to the chain gang for a term of twenty years. Larmon's case for murdering Anderson had not been tried when he left.

Col. Price, a member of the board of education, received the supplies for the public schools of the county, consisting of maps, charts, globes, etc., this week costing \$350 which are now being sent out. This is a big improvement over the old way of teaching school and will be a great advantage to both pupil and teacher.

Mark Hopkins, of Saint Clair, Mich., F. W. Bainbridge, G. W. Broyman, F. C. Thompson, of Toledo, Ohio, and U. L. Upson, of Buffalo, N. Y. have been in the city this week. Mr. Broyman is the vice-president of the Dahlonega C. G. M. Co., and all the rest are interested in the same except Mr. Upson, who is a railroad expert and is here in the interest of the electric line. These gentlemen have already done much towards the upbuilding of Dahlonega and Lumpkin county and are still continuing which is bringing prosperity to the whole country.

G. McGuire bought the Todd house last Tuesday from W. P. Price, Jr., for which he paid one thousand dollars. This will cause several families to have to move by the first of September. Mrs. Barney, who now occupies the house will move to the old Baptist church building where Minister Parks resides. Mr. Parks will go to the old Signal building now being prepared for a dwelling. The upper story of the old church building will be cut into rooms enabling Mrs. Barney to keep fifteen or twenty student boarders being only a short distance from the college.

Since our last issue Prof. Ben Hall has reached Dahlonega with his railroad survey from Gainesville by two routes. The first one was run up the San Branch to John Anstins's spring. This was too low as they could not reach the point desired that way. Then they ran another one up by Capt. W. J. Worleys and right through town down to the Hand mine. Col. Price dreamed more than 20 years ago that a depot would be made in Capt. Worley's lot, and it may be that the Colonels dream will come to pass. The surveyors have gone back to make some more changes down on the line. The railroad is a certainty. We publish two articles from the Gainesville papers to show that they are now co-operating with Dahlonega and getting ready for work to begin. One of the interested parties says that dirt will be broken on the road in less than four weeks. The electric line will be a standard gauge so that if they desire to run a steam car over the line they will have things ready for it.

Mixed.

An "old maid's convention" was held at Elkhart, Ill., recently. Of every hundred Portuguese peasants only twenty can read and write.

Copenhagen, has the largest zoological garden in Europe. It embraces 4,200 acres.

Three oil wells at Bibi-Eibat, in the Baku district, produced over 6,000,000 barrels last year.

Several soldiers who went through the fight at Santiago fainted at Columbus, O., the other day when they were being vaccinated.

Berlin is to have a special institute for the study of hygiene as applied to the tropics. Professor Koch has drawn up a plan for it.

"Did you say I lied deliberately?" "Well, not exactly. My remark was that you couldn't tell a deliberate truth."—Philadelphia North American.

Sir Walter Besant says no man has fewer amusements than himself. He is too short-sighted for billiards or tennis, and has even dropped the occasional game of whist.

A French philological journal estimated that of the 860 different languages spoken on the globe, 89 are in use in Europe, 144 in Africa, 123 in Asia, 417 in America and 117 in Oceania.

A month's supplies for the South Carolina dispensaries, recently purchased, included 915 barrels of whiskey, thirty barrels of gin, ten barrels of rum, 420 cases of whiskey, 100 cases of wine, four carloads of beer, five barrels of ale and five barrels of porter.

Lawman who killed Ben Anderson in Dawson county recently was tried last week, found guilty and sentenced to be hanged on the 4th of October. When Judge Estes passed sentence on Lawman he fainted, presenting a sad sight with his wife and children around him. Attorneys Dean and Findley have made a motion for a new trial and really there is no telling when he will be hung. So far Dawson county has never had a hanging. He has been sent to Fulton county jail.

Ben F. Perry is now out of the newspaper business entirely having sold his interest in the Cherokee Advance to John M. McDowell. Mr. Perry goes into the Canton bank as assistant cashier and bookkeeper. It is not often that a country editor gets into a place where there is plenty of money. We wish both the gentlemen success.

News comes from Porto Rico that a terrible storm broke over the south coast Tuesday of last week. The hurricane lasted for nine hours. The damage to property is estimated at \$500,000 and more than three hundred lives were lost.

Hon. J. R. McDonald, present member to the legislature from Ware was bound over one day last week for illicit distilling. The temperance bill comes up at the next session and the honorable gentleman was getting ready to meet it.

A little child of Lou Williams, colored, died in Dahlonega last Friday.

The man who wants to commit suicide can enlist as a soldier and go to the Philippines.

The worrisome stamp tax brought into the treasury of the government over \$43,000,000, for the year ending June 30.

Rev. W. L. Meese, of Auburn, Ind., has married 1,200 couples. He is responsible for a heap of happiness and some misery.

A clock is being constructed for Liverpool street station, in London. The interior of its case could allow five persons to lie comfortably.

Owing to the increased circulation of the Atlanta Journal an order has been placed with R. Roe & Co., for another press. The printing capacity will be about doubled.

It is said after Judge Estes sentenced Rev. Patrick 20 years—the full extent for attempting to rape in Dawson county, the negro asked if the Judge couldn't give him five more. No doubt the Judge would have accommodated him if he could.

And it came to pass that after he had advertised his goods there came out him great multitudes from all the region round about and did buy of him. And when his competitors saw it they marvelled among themselves, saying, "How be it that this man is busy, while we loaf about our doors?" And he spake unto them, saying, "Verily, verily, I say unto you, in this age of push and hustle it is easier for a camel to enter the eye of a needle than for a business man to flourish without advertising"—Ex.

Dodge county has a twelve-year-old boy that weighs 166 pounds.

Mrs. Cicero Rogers died in White county last Sunday morning of typhoid fever.

The wheat crop of the world this year is estimated at 2,504,000,000 bushels. Last year's was 2,748,000,000 bushels.

Won't it be nice when Dahlonega gets her railroad shops. This is the next thing when the electric line is completed.

One of the novelties of the Paris exposition of 1900 is a building that is to spin around like a nipsie top. The height of this revolving tower will be 400 feet. It will be divided into twenty-three stories, each story being given to some attraction. Another attraction will be the gigantic umbrella, invented by R. E. Sherman, of Chicago. This is a street structure more than 350 feet in height. To each rib of the umbrella an ear capable of seating fifty people will be attached.

The taking of the twelfth census will not be commenced until after the first of June, 1900, and the enumerators must be completed in thirty days except in cities of 8,000 population and over, which must be done in two months. The counties will be sub-divided into districts, each sub-division containing as near 4,000 population as can be estimated and arranged. One enumerator will be appointed for each sub-division of territory, who must be qualified to do the work promptly, efficiently and well. The appointment of enumerators will hardly be made before next winter, or at least before the sub-division of the territory has been made.—Ex.

The Local Paper.

Every thoughtful man whose observation of men and things is valuable, every man who has been obliged to rely upon himself for advancement, whose aspiration has been high enough and his will strong enough to advance himself; every man who recognizes the ladder by which he climbed and is not ashamed to acknowledge he was once at the bottom round, has a good word for the home paper, the country newspaper, which is the barometer of business and the artery through which it is increased and kept alive. The late Judge David Davis, of the United States supreme court, expressed this opinion after he had won his highest honors, says the Logansport Journal:

"Each year every local paper gives from \$500 to \$1,000 in free lines for the benefit of the community in which it is located. No other paper can or will do this. The editor, in proportion to his means, does more for his town than any other man, and with all his fairness, man with man, he ought to be supported, not because you may like him or admire his writing, but because the local newspaper is the best advertisement a town can have. It may not be crowded with great thoughts, but financially it is more of a benefit than both preacher and teacher. Today the editors of local papers do more for less pay than any other men on earth. Patronize your local paper not as charity but as an investment."

Prairie dogs are so numerous and troublesome in the Panhandle district of Texas that the ranchmen there have hit upon a new plan to eradicate them. On a single ranch last week no less than twelve thousand of the animals were captured. The trap is placed over the animal's mound and makes it a prisoner when it emerges from the hole. The importance of the new plan can be realized when it is stated that fifty per cent of the growing crops on the ranches in the district have been destroyed by the prairie dogs annually in the past. The grass crop also suffers to the same extent on account of the pest. It is believed that the new method will enable the ranchmen to get rid of them entirely.

Notwithstanding the wet and disagreeable weather in the Philippine islands for the Americans they occasionally have a "little spat" with the natives and never fail to gain some ground.

The U. S. pensions seem to be on the decrease from the last report. The total number of pensioners on the roll June 30th was 901,519, a decrease of 2,195. There were 40,991 names added to the roll and 43,186 dropped.

The farmers convention at Quitman last week failed to endorse either the round or square bale. The farmers mean to let the round bale and square bale men fight it out themselves.

Is sold by all druggists on guarantee. First bottle benefits or money back. Book on heart and nervous system free. Dr. Miles Medical Company, Elkhart, Ind.

THE NUGGET.

DAHLONEGA, AUGUST 18, '09.

Entered at the Dahlonega, Ga. P. O. as Second Class Matter.

Who is the editor of the Jasper Herald?

Eighteen lawyers attended Dawson Superior Court last week.

Secretary Root has stated that five more regiments are to be established.

Richard Pearson Hobson is now engaged in raising the Spanish vessel sunk by Dewey.

The duty on leaf tobacco grown in and shipped from Porto Rico to Cuba is \$5 per pound.

The requisite number of the 29th Ga. will soon be made up. Nearly 850 men have already enlisted.

It is estimated that the hail storm last Friday in North Dakota and Minnesota damaged the wheat crop \$2,500,000.

What is known as Texas fever has broken out among the cattle around Athens; and many fine cows have died from the fever.

The treasurer of the defunct county alliance of Fannin has a lot of money belonging to the order and he is at a loss to know what to do with it.

The Fiddler's Convention commenced at Roswell, Ga., last week and all who could play "Flat Woods" and "Leather Breeches" attended.

The records of the Superior Court in this circuit show that Solicitor Charters is one of the most successful officials that has ever held the position.

A stick of timber gotten out near Valdosta recently for ship-building contained 4,000 feet of lumber. It was 71 feet long, 24x30 inches at one end and 31x31 at the other.

In Dawson Superior court last week thirteen state cases were disposed of and all either entered a plea of guilt or were found guilty (including one for murder and another for attempting to rape) except two. The fines ranged from \$10 to \$50 amounting in all to \$320 besides costs.

The accounts of the destructive storm in Porto Rico grow worse. The latest report is that the loss of life in Ponce district alone is more than 200. Crops and supplies are all destroyed and the suffering is intense. Appeals are being made for supplies. It is calculated that 2,500 tons will be needed weekly until bananas grow.

Hon. J. H. Witzel has received his commission as census supervisor of the 9th Congressional district and taken the oath of office. Applicants for enumerators' places need not think though that this means that the appointments will be made any time soon. That will be done until after the territory has been subdivided and other preparatory work done. Blue Ridge World.

There were three rapes last Saturday down in Georgia by negroes and one lynching. Two more lynchings would have occurred had the Governor not called out the troops. The action of the Governor gives these fends the advantage of white women, as they have troops to protect them while women are at the mercy of the world. When a rape is committed no troops are sent out to hunt up the brute.

The tax returns of Georgia have proved to be disappointing. The digests of the counties of the state have been received by the comptroller, and the total gain is only \$820,000, a sum much below what was expected, and in consequence the comptroller feels disappointed. He does not way out of a general cut in the expenses of the general departments of the state at the rate fixed by the last legislature of five mills and thirty-six cents which cannot be changed. Fulton shows a decrease of \$4,000,000.

Managing Notes.

A charter was granted to the London Mining Co. in Dawson county last week for the purpose of working mines in that section. Dr. Cherven is negotiating for the Blair tract property belonging to Howell & Miller, of Aurora, which will probably change hands in the near future. The Doctor has the privilege of testing it which was commenced this week. A force of twelve or fourteen hands have been engaged at the Big Joe taking out ore and doing other necessary work to start the mine up again on full time. The concentrator will be in and ready for operation by the first of next month.

Any new mining developments will be published with pleasure. Exaggerated reports are not desired, neither will they receive any attention in this paper. The facts are what we want. We want both the country and investors to prosper, which cannot be accomplished by publishing falsehoods.

J. F. Moore, for himself and others, has taken a working option on the Dahlonega Mining Company's mines. C. J. Norwood will continue to represent the company. The reservoir is being cleaned out, some flumes repaired and the mill will be ready to start up Monday.

Capt. Ingersoll returned from White county last Monday and reports the mining industry up there moving along as usual. A number of hands have been employed for some time in cleaning out the old Loud ditch. This canal is 22 miles long and it will take a week or ten days yet to complete the work.

G. D. Bruce, the photographer, has been employed to take a view of the chlorination plant once a week until it is completed so as to show those members of the Company at a distant who desire it, the progress that is being made weekly by looking at one of these photographs. This will give them an opportunity of seeing what is going on without coming down.

W. P. Thomas sends us some samples of asbestos taken from his property in Martin's Ford district recently discovered, on which he has also opened up a gold mine. The samples are very good but do not show the true value of the mine as they were taken from the surface. Go down on it and you will doubtless find that you have a mineral that is very valuable.

We own no interest in any mine and what we say about them is as a matter of news like any other industry. We want to see both the country and investors prosper and will endeavor to give the facts about the mining operations as correct as possible. We don't believe in misrepresenting any mine or property. Should we do so and be the cause of any one coming here and being deceived we would feel exactly like we had stole what it cost him to make the trip.

F. C. Bogart and W. M. Keady were in our office last week who informed us that they had become possessors of the Hargrove property in Auraria district near the Stewart mine, which they would commence developing at once. A ten stamp mill will be erected and such other necessary work will be done as to enable them to operate the mine profitably. This is splendid property which will pay well if properly worked and both these gentlemen look like business men who are fully able to carry out the plans necessary to make a gold mine pay. We wish them success in their new enterprise.

Rev. Johnson made 25 penny-weights from two and one-fourth tons of ore last week from Crown Mountain. This is the work of two men in less than four days. This gives an idea of how easily the mine can be worked. There are a number of veins on this property already opened up that are richer than the one found by Mr. Johnson but cannot be worked successfully without water. A company is being now organized to put water on this mountain by means of pumping it from the Cheat

river and in the near future a suitable mill will be erected and this mine operated on a large scale which will no doubt pay handsome dividends as Capt. John Huff, a native practical miner, says that Crown Mountain is one of the best mines in this country.

Last Wednesday some more valuable mineral property changed hands, being the "Free Jim" lot owned by Col. Charters, Messrs. H. D. Gurley and E. E. Crisson, just beyond the colored Baptist church, which was sold the Dahlonega C. G. M. Co. It brought a handsome sum. The company also bought the town property on the right of Crane's hill from W. P. Price, Jr., containing eight acres. This is a very desirable location for residences and gives the company possession of all the land from town to the Hand mine.

G. H. TenBroek, a prominent lawyer and capitalist of St. Louis, writes Mr. F. H. Kennedy at this place as follows: "I am thoroughly satisfied that Dahlonega and its surroundings offer one of the most attractive inducements to investors and speculators of which I have any knowledge. I looked the locality over thoroughly several years ago, and but for the depression which came on at that time would have gone quite heavily into investments there. I am satisfied that every dollar invested there now will double itself many times over within the near future. I wish you every possible success in your undertaking."

They commenced placing the timbers first of the week on the foundation of the chlorination plant at the Hand mine near town. All the mechanics and other laborers that can be used to any advantage are at work so as to push it through, while fifty and seventy-five wagons are running daily so as to keep the workmen supplied with the necessary material. At the same time tunnels are being cut and veins being stripped to have ample ore ready and convenient to get to when the plant is completed. The large tunnel through which the ore from the Yahoola is to be hauled in cars will be finished probably next week. Good pay ore is found almost every where on the property in large quantities. A large body of good ore was struck while digging out the foundation for the plant. So there is no end to the valuable ore to supply this 120 stamp mill.

IS YOUR HAIR TURNING GRAY?

What does your mirror say? Does it tell you of some little streaks of gray? Are you pleased? Do your friends of the same age show this loss of power also?

Just remember that gray hair never becomes darker without help, while dark hair rapidly becomes gray when once the change begins.

Will bring back to your hair the color of youth. It never fails. It is just as sure as that heat melts snow, or that water quenches fire. It cleanses the scalp also and prevents the formation of dandruff. It feeds and nourishes the bulbs of the hair making them produce a luxuriant growth. It stops the hair from falling out and gives a fine soft finish to the hair as well.

The Dahlonega Public School.

The first annual session of the Dahlonega graded school will begin on Tuesday, September 8.

The principal's office at the school building will be open each day next week—Aug. 31 to 26—from 9 to 12 o'clock in the morning and from 2 to 4 in the afternoon, at which place and within which time it is desired that every pupil expecting to enter the school shall make application for registration, and be examined and classified. It is probable that there will be more pupils than can be accommodated at first, and as pupils will be assigned seats in order of application, those who would be sure of obtaining admission should apply as early as possible. Pupils who may be permitted to enter school after the session begins will be at a decided disadvantage and could probably not be promoted with their class at the close of the school year.

It is hoped that parents will accompany their children on making application for admission, as the principal desires to become acquainted with them as well as with the children.

Several of the Mr. Duckets from Banks county were here on a visit last week. Some of them used to attend college here, who enjoyed the trip to the place of their school boy days.

Jack Townsend, Will Palmer, Zack Holten and Mary Perry gave a matinee on Crane's Hill Tuesday night which resulted in Mary paying one and cost Zack two and cost. Others not been tried yet.

The Dahlonega camp meeting closed last Monday morning after being in session one week. From eight to ten preachers were in attendance all the time who after working earnest and faithful the whole time only succeeded in getting three additions to the church—one grown person and two children. The devil got in excellent work, as is the case at most camp meetings now days. He sent men up there drunk, had them brought back so, while others got drunk on the grounds and fell by the wayside, causing heartaches and mortification to relatives, saying nothing of much other mischief that was done going and coming from the camp ground. So you see the bad overbalances the good a way yonder. Camp meetings have gotten to be great resorts for young people, as well as some older ones, who drink and spree and stand around in the dark and discharge their pistols to the annoyance of the very few who attend for the purpose of endeavoring to advance the religious cause. In a nut shell a camp ground is a splendid place to court and frolic and get something good to eat but a sorry place to get religion. We have good reasons for saying so. Two women—one married and the other single—left Sunday morning saying that they were going to the camp ground. But they never heard a single sermon preached. They stayed off in the woods near enough to the camp ground to entertain visitors who might wish to go out, all day, drinking and "sporting."

Deafness Cannot be Cured

by local application, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube gets inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness caused by catarrh that cannot be cured by Hall Catarrh Cure. Send for circulars, free. E. A. CHENEY & CO., Toledo, O. Sold by Druggists, 75c. Hall's Family Pills are the best.

THE NUGGET.

DAYLONEGA, GA., AUGUST 18, 99.

Mrs. R. C. Thomson is quite sick.

J. V. Harbison is on his way home from Montana.

One northern gentleman while there last week subscribed \$30,000 to the Dahlonega railroad.

Last Tuesday was pay day and the Consolidated Co. caused several hundred hands to be happy.

The Dahlonega Consolidated Co. uses the time about as fast as they can make it at the Gainesville Lime Works.

Hutch Wimpy gathered all the peaches he had Tuesday—five—and gave one. What more could we ask?

Messrs. Burt and McKee are having their lumber sawed and framed getting ready to put up their houses in Dahlonega.

A case was made against Geo. Fretwell, of Gainesville, last Sunday night by the marshal here who found him most too full of mountain dew to be comfortable either to himself or those around him. Ope and cost.

Both apples and Irish potatoes dropped suddenly from thirty to forty cents on the bushel in Dahlonega last week. Apples sold at 20 cents per bushel and potatoes 40. They market was crowded then but they will soon take a rise again.

Rev. J. A. Sharp, of Madison, Ga., has been elected to fill the chair of mathematics in the Young Harris Institute made vacant by the resignation of Prof. J. B. Boyd, who has accepted the same position in the college at Dahlonega.

Messrs. M. G. Head, W. H. Jones and B. F. Anderson, appointed to appraise the real estate, notes, etc., of G. Hughes, deceased, finished their work last Monday and valued the whole property at \$10,450.67. The town property was rated at \$1,500.

Geo. Burns, a prosperous farmer living down on the Chestatee river, gathered quite a number of peaches this year from his orchard. He did not only tell us about them but sent us several which we relished very much, at the same time thinking of what a kind old friend Mr. Burns is to ye editor.

Uncle Dike Martin killed 39 pilots and a moccasin the other day on the McMillain place below Auraria. After killing the pilot and 38 young ones he started to the house and was tackled by a moccasin on the way, the life of which was soon ended and the old man hastened to the house for fear that another one might come in his way.

Capt. Hall left for the north last Monday in company with his wife and mother. They went from Gainesville to Savannah where they sailed for Boston, then to Hartford, Me., and from there on to Hardwick, Vt. They will reach there about the 25th and will remain for some time as this is the Captains native state.

Last Monday James Smith, residing in the northern part of town, killed a very large rattlesnake in his dwelling. His wife went to the water bucket in the dark to get a drink and heard something which she thought was a rat. Fortunately she got a light and saw crawling on the wall towards the bucket the dangerous serpent. The lady had put her hand in four fitches of it.

One day last week while a couple of men were cleaning out a well on the place recently purchased by Mr. Thomson, they found in it a lot of bones wrapped up in a bed tick supposed to be that of an infant; creating such a stench that it was all they could do to endure it. The premises have been vacant for some months giving any one men enough an opportunity to feed their shame in this manner but who it can be we have not the faint idea.

An infant of Henry Edmonson died Wednesday morning.

Mrs. Wm. Brown, died in Hall last Friday and was buried Saturday at St. Paul church in Lumpkin county.

Mr. Henderson, a civil and mining engineer is here from Chattanooga who will bring his family later on.

G. J. Johnson, of Newnan, has been spending several days in Dahlonega, making a general inspection of things.

Frank Moose and Hattie Huff of White county, were down last week on a visit. Both remembered the printer in a financial manner.

Remember that when you subscribe for this paper and you wish to move that your address can be changed without any extra cost to you.

Deputy Marshall Grizzle captured another still in Dawson county last week making two in a single week. The last one was a bran new one and held 60 gallons.

Col. Kyle was down from Cleveland last Sunday who stated that the small pox in White had died out, and that camp meeting would be held at Mossy Creek which is now in session.

Paul Allen, after remaining a few weeks with his relatives in Dahlonega, left last week for Acworth where he will remain a week or so and then return to his post of teaching in a Kentucky college.

Tom Sain is going to make brandy again this year. He came into town Friday to fix up the papers but had to go up to the camp ground where we learn some of the tent holders signed up his required bond.

F. J. Kennedy, of Asheville, N. C., has decided to locate in Dahlonega and engage in the real estate business. Mr. Kennedy has been here before and is no stranger to the people of our town. We welcome him to our midst and trust that he will meet with success in his new business here.

Bart Montgomery, of Hightower district, seems to be ahead in this county on vegetables. Up to a few days ago he had sold \$76 worth of vegetables gathered from his garden this year. Mr. Montgomery stands head so far as heard from as the most successful gardener in Lumpkin county.

John Holcomb, a prosperous merchant of Gadsden, Ala., has been spending several days in Dahlonega with his relatives, in company with his wife. Mr. Holcomb first commenced business in Dahlonega years ago and has many friends here who delight to hear of his success in business in Alabama.

Rev. W. W. Landrum, pastor of the First Baptist Church of Atlanta, preached two interesting sermons during his visit here last Sunday—one at the camp ground and the other at the Baptist church in Dahlonega. They were both the ablest sermons that have been delivered here for many years. It is hoped that this eminent divine will visit us again some time in the near future.

Commercial drummer Palmour, of Gainesville has a horse that doesn't like negroes. Last Saturday after it was harnessed up at Meaders' stable in Dahlonega it commenced striking at the negro with its feet and backed the poor fellow into a tub of water and on into the stable until one wheel of the buggy was completely demolished against the door. If every day down in lower Georgia had a horse like this they would not be afraid to go out alone, and there would be less lynchings.

Tuesday after some of the members of the Dahlonega C. G. M. Co. returned from the Hand mine they got on Jacob Dowdy's ox wagon and had him drive them up to Brice's gallery to have their photographs taken, wagon, team and driver. The party consisted of Messrs. W. H. Hegans, J. C. Fisher, W. G. Fisher, W. W. Bond, T. L. Bickel, Harry E. Simms, of Columbus, Ohio, and Carl A. Breck, of Marietta, Ohio.

Do you wish to purchase any lands? If so read Mrs. J. E. Reese's ad elsewhere.

Rev. W. G. Spence, the contractor, commenced work on the new Presbyterian church this week.

The contract for the building of the Yahoola-school house has been awarded to Rev. C. M. Ferguson for \$30.

We have always heard of shunks in August but never saw a load of them brought to town until R. N. Mays came in last Tuesday.

A blockader had over two gallons of liquor stole from him last Monday. He had received some money for it but when it was gone he had to refund it with a very sad feeling.

James Dockery, who resides in Chestatee district, killed eight rattlesnakes the other day that were under one rock. Later on J. F. Dockery killed two more at another place.

Capt. W. J. Worley has been out for some time getting rights of ways and water power. He has now most of the water power from parties owning property on Hightower river for the Consolidated Company.

Capt. F. M. Williams, Lumpkin's representative, took a few weeks to Ware county's legislator. While theirs was bound over last week for stilling ours joined the church Sunday at the camp ground and will lead a different life.

Allen Anderson, of Jackson county, spent two or three days in Dahlonega this week with relatives, accompanied by his daughters, Miss Delcie and Miss Woody. Before Mr. Anderson returned home he gave ye editor a dollar for improvements on the interior of his pocket book.

A big protracted meeting has just closed up at Town Creek church during which about 20 additions were made to the church. Revs. Gilreath and Ash conducted it. The baptizing takes place on the first Sunday in next month. Quite a number of people from this county will attend.

The boys tell a right good joke on John Anderson who went courting in the country Sunday night who, after returning home found he had exchanged hats with some one, and thinking that it belonged to the girls father gave a fellow 25 cents to go and make a change but when he got there he found that it belonged to another young man.

Last Friday a match spelling contest took place in the lower part of the county between the Etowah school, which is being taught by Miss Naomi Wheelchel, and the Fairview school, taught by A. W. Cain. The two schools consisting of more than a hundred pupils met on the halfway ground to spell. For awhile the contest was very exciting but the victory was won by the Fairview school.

The following gentlemen, some of whom already have mining interests here, have been in Dahlonega this week looking over the different operations: W. G. Fisher, W. H. Hagan, J. C. Welch, Harry E. Simms, F. L. Bigelow and W. W. Bond, of Columbus, Ohio; F. R. Adams and J. G. Rosenthal, of Delaware, and Charles A. Albrecht, Marion, O. They made the Hall House their headquarters until returning home yesterday.

Tyler Earls, col., was tried for larceny last Tuesday and found to be a fit subject for the asylum. He had to be toated to the court house handcuffed, where he tore the last rag of clothing from his body with his teeth. He preached, cursed and sang, and had to be tied and held down by two strong men before the trial could proceed. He was certainly a pitiful looking object. He was brought in by R. N. Mays Sunday and put in jail. The lunatic was carried to the asylum last Wednesday by Wm. Anderson and John Ricketts who were allowed \$1 per day each and expenses.

The ladies of the Presbyterian church will give a box party at the court house next Tuesday evening commencing at 8 o'clock. Ice cream and other refreshments will be served.

Prof. Austin returned from the mountain brooks of North Carolina last week where he had been spending several days catching speckled trout. The Professor seems to be an expert at the business as he caught some thirty odd with an artificial fly.

T. W. Hicks, well known to many of the citizens of Dahlonega, honored our sanctum with a visit last Saturday. Mr. Hicks has been successfully mining for asbestos in that county for a number of years. His shipments are made to Clarksville, the nearest railroad station.

Dr. John Williams, who was a student of the N. G. A. College in the years '73 & '74 was here on a visit last week from Texas. He was accompanied by Marcus Chastain of Dawson county, who also used to be a student. We are always glad to meet any of the old students.

Twenty-five thousand pressed brick are being hauled from Gainesville, a distance of twenty-five miles, for the Dahlonega C. G. M. Co. to be used in the chlorination plant. This shows the necessity of a railroad. If a railroad had been completed to Dahlonega before this company commenced its plant it would have saved it many hundreds of dollars in freights alone.

Taylor Hamilton, who acted as prisoner in the "Si" Smith lynching in Hall county jail recently, is the same man who used to reside in Dahlonega, familiarly known here as "Sluder" or Taylor Wallace and used to go about over town squeezing the boys heads and hollering "pe ree." But Taylor has got himself into a pickle now and will not have any opportunity of squeezing many more people's heads.

One day last week a certain gentleman told us that he was passing through Auraria and heard some one hollering "Oh Lordy! Oh Lordy!" in a certain house. He went on a little peace and enquired what it meant and was told that it was a grown son whipping his father who is about 30 years old, said to be a frequent occurrence. We are very much surprised at the good citizens of Auraria tolerating such conduct.

On several occasions at nights parties would visit the patch of W. H. Reid in this county and steal his melons. They did not only like what they wanted but would cut and destroy others. The other night two of his daughters decided to go out and watch. They had not been secreted long before two parties arrived and commenced the destruction as usual. One of the ladies spoke up to where the girls were. Both are from Union county, one having been at this spring and summer for Mr. Reid's neighbor. A number of years ago a young man had to leave this county for just such conduct. We do not know whether these men will be prosecuted or not but they ought to in order to learn them to let peoples melons alone.

We are told that quite a little sensation was created during the revival at the Baptist church in Auraria a few nights ago when one of its deacons got up and told a young man who was sitting with a young lady that he must move on the "mens side." The young man refused to obey the order which caused the deacon to get up in the pulpit and announce that if he didn't move that he would present him to the grand jury. The young man didn't want any trouble and got up and went out of the house. We notice that this rule has been adopted, and not longer than last year caused blood shed at Loudsville camp meeting and came near resulting in one man's death. We believe in letting people alone in church as long as they behave themselves.

The Hughes property didn't sell last week but will likely do so to morrow.

Col. Charters is now in Gainesville attending the special term of court convened to try St. Smith's lynchings.

J. F. Dockery, who left this county eighteen years ago, is back on a visit to his relatives and friends.

They are receiving the largest stock of general merchandise this week at Halls that were ever brought to Dahlonega.

Judge Estes visited Dahlonega last Saturday and court was opened long enough for him to grant a charter to the North Georgia Electric Light and Power Co.

From a private letter we learn this week that a railroad route is now being surveyed from the marble works to Bellton which is to come by Dawsonville and Dahlonega. They were at Steel's bridge last week.

Postmaster A. S. Wheelchel, of New Bridge, was up Tuesday and renewed his subscription to the Nugget. The Consolidated Co., and Mr. Wheelchel are endeavoring to make a trade and it may be that he will sell out to them down there.

J. N. Twitty was up from Gainesville last week in company with a Mr. Breedlove, of Monroe, looking over the mines. The gentlemen expressed themselves as being very much surprised at the amount of work that is being carried on here now.

Last Saturday afternoon a blockader from an adjoining county brought in a keg of liquor to sell to those who wished to tune up their voices for camp meeting purposes (that is he said so.) He hid the vessel in a hollow between here and the Yahoola bridge so as to have it convenient when the shade of night appeared. He had some special customers who couldn't wait and the man was induced to make a few trips to it before sundown. By night Marshal Grizzle got wind of it and went out to make an investigation but a "runner" got there first enabling the moonshiner to get away with his keg before the officer reached the place, thus causing things to be more quiet at the camp ground that night.

The Gainesville city council met yesterday to take action concerning certain rights of ways desired by the Dahlonega Railroad Co. through the streets of that city but at the time of going to press we are unable to state what was done, though from the tone of the Gainesville papers her citizens are ready and willing to co-operate with the citizens of Dahlonega in extending a helping hand to the company which has this long felt want for Dahlonega under headway, and all stumbling blocks are now cleared away and the day is not far distant when Gainesville and Dahlonega will be connected by rail and prosperity reigning throughout this whole mountain country.

Last Friday afternoon Samp. Motes, a resident of Yahoola district, lost his life very unexpectedly while hauling stock to Hall's saw mill. He, in company with two other gentlemen were engaged in getting a large stock up a steep hill near John Waldens with four mules or horses hitched to a wagon. They had made two or three pulls and were expecting to reach the top of the hill the next time when all of a sudden the haws and stay chains broke, causing the log to knock Mr. Mote down and before he had time to recover the wagon ran back and he was crushed against a tree. He was extricated by his comrades and carried to the nearest house where he suffered great agony for some seven hours when death relieved him of all misery and we trust he is now at rest. We, together with the whole community sympathize with his lonely wife, aged father and all other relatives in the loss of the one who was called away from their presence without a moments warn ing.

A large horse attached to a buggy ran across Main street foot bridge last Wednesday doing but little damage either to bridge or buggy. Lon Bruce and Will Worley were on the side walk. One climbed a tree and the other fell over a fence to keep from being run over.

Since the canned beef investigation and so much decayed meat found to be on the market it has caused a decreased sale in this article even right here in Dahlonega as our citizens are afraid of it and don't care to eat spoilt beef any more than the soldiers did.

Green Martin and Clint Maddox, of Murrayville, were up last Saturday in search of a vacant store room. They live on the road between here and Gainesville and see the freight wagons going and coming to Dahlonega. They can easily see which way the tide is moving and want to get in on time.

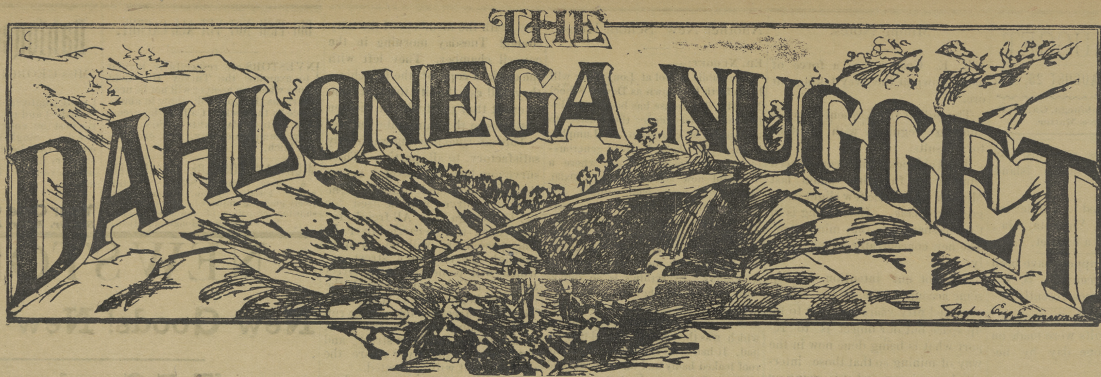

Frequently when Arch Anderson leaves his room some body steals something from it. Sunday he lost a hat. Arch will have to marry so as to have some one to look after things when he is gone. Let some of the young ladies who are seeking a husband send in their applications and see if he can't be induced to wed.

Last Sunday Sheriff Davis and a Mr. Jones arrested Bud Hains who was wanted by the sheriff of Madison county, being charged with an assault with intent to murder, and put him in jail to await the arrival of the officer for him. Haines had only been here two or three weeks and at the time of his arrest was working at Hatfield's stable. They came and carried him back yesterday.

Prof. Witherspoon, one of the teachers in the N. G. A. College, sent in his resignation the other day in order to accept a position that will pay him more. We regret to lose the citizenship of as good an educator as Prof. Witherspoon, although we are glad that the change is benefiting him financially speaking. His resignation takes place first of the month. The trustees will meet soon and fill his place.

It is said that Rev. Z. Speer and H. H. Stephens came near mixing at St. Paul Church the other night. They fell out something about a Sunday School causing the word lie to be used by both. As one is a member of the church and the other a preacher, both aiming to reach the same country, we don't suppose much harm will grow out of this racket, especially when it was about a church or Sunday School matter.

The following comprise the list of teachers for the Dahlonega graded school: Prof. Mann Martin, of Perry, principal; Assistants, Miss Belle Thurn, of Brunswick, and Miss Lizzie Chapman, of Dahlonega. Mariah Hawood, of Atlanta, will take charge of the colored school. The white school house is completed and the seats and furniture is purchased and ready to be put in position. But so far nothing has been done towards fitting up one for the colored people. There are scarcely forty colored children of school age in Dahlonega but still some place has to be prepared for them in accordance with the act creating these public schools. It was intended by the trustees to fit up the building now used by the colored Baptist denomination for a church so that they can both teach and preach in it, but some of the church officials object to it although it was donated years ago by the Freedmen's Bureau to the colored people for a school and not a church house and they have been teaching and preaching in the building ever since. Had the property been deeded to the colored people within the corporate limits for school purposes the trustees would know how to act, but as it is they can't get this one agreeably and have only about \$100 on hand and that won't build and furnish a new one. What will be the result we do not know.

WALLACE CONFESSES.

Taylor Wallace Tells About
the Lynching of St. Smith
In Gainesville Jail.

"My home is in Maysville, Jackson county. On the morning of the killing of St. Smith I left home and went to the store of John Campbell for a drink of whisky. Mr. Campbell told me he had none but that a man named Bryson, who had been there the night before, and who came from Gainesville, had some down the street that we might get."

"Campbell said: 'I will go with you to Bryson, and we will get some liquor.' We went to the store of Green & Smith and Campbell went into the basement. Pretty soon I saw him motion through the iron grating for me to join him and I went down. There I met Bryson for the first time, and he gave me a drink of whisky. We three then went back into the store and Bryson told me of the arrest of St. Smith. I had heard of it before. We three then went back into the store and went to a drug store, where Bryson ordered some iced drinks. I think they were Coca-Cola. A man named Bob Hancock joined us, and Bryson told Hancock and me not to go away until he saw us; that he wanted to see us on some business."

"Then we all separated. That was about 1:30 o'clock in the morning. I went home and stayed till after dinner."

"After dinner I came back up town, and on the street. I struck up with Bryson, Campbell and Bud Freeman. They were talking together about something I did not hear. We all went down to Christian's drug store, where we got more iced drinks. Then Freeman and I stepped out in front of the store and Campbell and Bryson went down the street a piece and began to talk."

"Freeman said I'm broke and don't like to drink on fellows all the time without paying for something." Then Freeman said that he was broke, too, and we decided to go home. Bryson and Campbell called us back and said, "Let's go up to Campbell's." On the way up to Campbell's Bryson had to stop. While we were waiting I asked Freeman what Bryson wanted with me."

"Bryson is down here to get the boys to go to Gainesville to-night," said Freeman. "There is going to be a lynching down there to-night." I said that I could not go, and Freeman said he didn't know if he could go or not. He said that it was understood by all the parties about the lynching at Gainesville. "By that time Campbell and Freeman stepped on and told me to wait for Bryson. I was sitting on a fence when Bryson walked up."

"There is going to be a lynching in Gainesville tonight," said Bryson, as he walked up to me, and I want you to go."

"I can't go," said I. Then he told me that it was all known to the sheriff down there and the people and that there would be no people there will be 700 or 800 people

down there," said Bryson, and you will never be seen. I want a big crowd and you must go along."

"We went up to Campbell's house and Campbell brought out whisky with sugar and glasses. We all took a drink and then we got chairs and went out into the yard and sat between the well and the house."

"There the conversation of the lynching was continued, and Bryson was asking that we go down and get in it. Freeman said it was out of his power to go, and Campbell said he couldn't go. We drank more whisky and then Campbell advised me to go. They all said there would be no danger."

"Everything will go off like a prayer meeting," said Campbell. We finally broke up, after Bryson had said he would telegraph and have a half gallon of whisky at Lula for the boys. Bryson and I got in a field in front of the house, and being full of whisky and agreeing to pay all the expenses, I agreed to go. He said we had better not go together."

"I got a ticket to Lula and got on the train. Bryson had a ticket to Gainesville and sat in another car. At Bolton the down train was an hour late and I went to Lipkin's bar for a drink. Bryson came in and we three talked of the arrest of St. Smith. We talked of the fact that the governor had offered no reward for Smith, and that if it had been a rich man he would have offered the reward."

"When we got to Gainesville Bryson told me to get in Evans' bus and go up town. He got in, too, and a young white fellow who said his name was Brice and that he was a harness maker, asked Bryson what luck he had. He said 'Good luck.'"

"I wandered around Gainesville looking for the seven or eight hun-

dred men. Bryson and I went into the court house square and then he said 'Oh hell.' Then we went to a soda fountain near the Arlington and we met a man named Tanner. Bryson introduced him to me. Tanner asked what luck and Bryson said 'Pretty good.' Then Bryson asked where the boys were."

"Tanner said, 'They are right down here' and we went down the street a piece and found ten or fifteen men under a tree. They gave me an introduction to a man named Henry Towery. I said that if that was all the men there, I was going home."

"Towery said, 'You undertake to leave here and you are a dead man.' After talking a while, they came to where Towery, Tanner and me were standing and said, 'Come on, boys.' Then they said they were going to handcuff me. I asked what in the hell I had done. They said they were going to take me to jail, but they would not leave me there. Then we started for the jail. We went down the street, over ravine and through pasture. We had lanterns and were striking matches all the way for cigars and cigarettes."

"When we got to the jail gate Bryson and Towery, or it may have been Bell, I can't say which, took hold of me. They carried me up the steps and raised up the jailer by knocking. He came out in his night clothes with his lantern. One of the men with me told him they had a prisoner they wanted to leave till morning. Then a tall fellow with a false beard, whom the boys had been calling 'Mark,' stepped up and drew a package of papers from his pocket. He said he was Sheriff Vincent, from Gwinnett county. Monday told him that it was all right, he didn't want to see

the papers. Then he unlocked the door and came on the outside. The man with the beard stepped on the inside and stood by the door. Then the men took me inside and turned me loose. Monday looked over the banisters of the yard steps and said, 'What does that crowd mean?' "Just then I darted down the steps and met the men coming up. One of them put a pistol in my face and told me to stop. They rushed by me and I went on in the jail yard. There was a guard at the gate with a pistol, and he stopped me again. Just then I heard the shots in the jail and I heard a voice cry out: 'Oh, Lord!' There were more shots, and then the men came out."

"I don't know to this day who it was they were shooting. I went out on the streets with the crowd and we walked to a field. There one of the men put a piece of money in my hand and said for me to hit the 2 o'clock train for home."

"I thought it was a dollar, but when I got to the light I saw it was a twenty dollar gold piece."

"I walked all the way back to Maysville and got home about an hour before sun up. I went to Campbell and got him to change the money for me. I told him the story and he rejoiced in it."

"Bryson came to me several times and told me not to be scared."

"He said that it was to keep me posted that he came. He said that it was all fixed and that the sheriff knew all about it and that no jury in the world would convict me."

"The first I saw of Capt. Looney was when he came to Maysville. He sat around the town and I met him and talked to him about the crops. He went away and I did not see him again until one of the marshals came to my house and said that an officer was waiting down the road in a buggy for me."

"I went down there and it was Looney and he arrested me. Campbell had told me that Looney was going to bring a pile of money to Maysville and that we could get it. I knew that I had done wrong and the best way out of it was to tell the truth. Sheriff Monday came to identify me and when he saw me he couldn't have looked worse if he was going to die."

Turner Quillian was in Dahlonega again recently from Hall county and received another bill of lumbur to saw for the Dahlonega C. G. M. Co. Mr. Quillian says that the opening up of the mines here has been of much benefit to a large number of laborers in his section. When he was here he had had twenty-three wagons hauling lumber to the Hand mine for twenty days. The orders he has received from this company alone has enabled him to give employment to more than sixty hands. This shows the benefits that are being derived from the operations of the Dahlonega Co., which are not confined to Dahlonega and Lumpkin county alone but are benefitting people in all the adjoining counties for miles around.

Gainesville's city taxes are 90 cents on the hundred, ten cents higher than they were last year.

BARBER SHOP.

When wanting a price clean shave, hair cut or shampoo call on Henry Underwood who runs a first class barber shop in every respect next door to McGee's store on main street where he will be found ready to wait on you at any time.

**Dropped
All Other Treatment.**

"When I heard of the wonderful cures performed by Miles' Restorative Nervine I dropped all other treatment. Nervous prostration and general debility had baffled the efforts of the best physicians in this section. The first bottle of Nervine brought relief. I continued using it together with Dr. Miles' Heart Cure until health was again restored."

Mrs. C. W. Olmsted, Kicksapoo, Okla.

Dr. Miles' Nervine

is sold by all druggists on guarantee, first bottle bottle bottle or money back. Book on heart and nerves sent free. Dr. Miles Medical Company, Elkhart, Ind.

THE NUGGET.

DAHLONEGA, AUGUST 25, '99.
Entered at the Dahlonega, Ga. P. O.
as Second Class Matter.

Six hundred lives were lost by the recent hurricane on the island of Andros.

A negro girl tried to kill her invalid mother near Valdosta, Ga., the other day with a hatchet.

Several white cappers have been arrested near Greenville, S. C., for whipping negroes recently.

Last week in Little Rock, Ark., seven brutal assaults were made on white women in one day by negroes.

A factory to manufacture hosiery and underwear at Americus, The Dixie Knitting mills, will be in operation by November 1st, next.

Morgan Lawmon, who was recently convicted of murder in Dawson county and sentenced to hang 4th of October, is now in Fulton county jail for safe keeping. His appeal for a new trial will be heard at Habersham court next month.

The last grand jury of Dawson recommended a curtail in the expenses of the county commencing on editor Thomas. A set of men who are not willing to pay a printer his just dues should not be allowed any further for serving on the grand jury.

Dr. K. A. Smith, of Gainesville, has tendered his resignation as smallpox physician for that city after having been paid \$650 for his services. Dr. J. W. Oslin has been elected to succeed Dr. Smith at a salary of \$3 per day when he renders services of this character.

During the month of July, the campaign in the Philippines cost the government in the neighborhood of twenty million dollars, and when the wet season ends the expenses will increase. The loss of our troops in those islands up to the 18 of Aug. is: Killed, 269; died of wounds and accidents, 129; died of disease, 434; total, 2,393.

Mayor Woodward of Atlanta, who was charged with draining the whisky glass too often, has been forgiven by the city council and all now seems to be working well. But there is no forgiveness for the poor unfortunate persons who are arrested on the streets of that city for like offences, neither will there be any reduction in their fines. It will take \$3.75 in cash or ten days on the rock pile to settle the bill. This is the result of being poor.

J. C. Fretwell, of Buford was arrested a few days ago in Oklahoma Territory and brought back to Jackson county, charged with having sold territory and taken notes which did not specify their consideration in the face of the note, being a criminal offense. It cost \$200 to bring him back for trial. It is said that he missed making a \$2,000 deal by reason of having been arrested and that he will bring a heavy damage suit against his prosecutors.

E. H. Preston, an old cripple 60 years of age tried to kill his wife in Atlanta the other night. He shot at her seven times but she was so quick that she dodged every bullet. They have been married twelve years and the old man said that his wife got mad the night after the wedding and had been so every since, and on the night that this row occurred she began to beat his cripple legs with a piece of iron when the fan commenced.

Deputy marshal Landers located at Gainesville, while out in Habersham on a raid the other night with Deputy collector Bonito Crawford and J. P. Prater, dislocated his shoulder while in pursuit of a blockader who was discovered at an illicit distillery and endeavor to catch the officer. The agent of course is being rejoiced over by the blockaders of that county. They wouldn't have cared if Marshal Landers had dislocated his neck.

Mining Notes.

E. H. Crisson has a force of hands down at the Ivey-taking out ore.

The mill at the Crescent mine is running regularly with satisfactory results.

The Dahlonega mine commenced running on full time again last Monday after some few slight changes were made. Everything is in top shape at this mine now. The new concentrator works nicely.

It is not our intention to clip some account of the mines which occurred fifty years ago just to fill up space but our object is to report what is being done now in the way of mining so that those interested may know what is going on here at the present.

F. Y. Moose made another good clean up down at the Ivey last week. He found 21 nuggets weighing from one pennyweight to five pennyweights and eighteen grains. (One of the nuggets looked like an armless doll and another very much the shape of a fish.)

Both placer and vein mining are being done now down at the Calhoun mine with splendid results. (Only twenty stamps have been run yet but one shift. There is an abundance of ore at this mine and later on arrangements will be made to run the mill both day and night.)

It will be seen elsewhere in this issue that another charter is being asked for which will in a short time add much to the prosperity of Lumpkin county. The petitioners are W. W. Murray, J. F. Moore and J. H. Moore, who ask to be chartered under the name and style of "The Pioneer Exploitation and Development Company," for the purposes set forth in the ad. or petition.

Dr. T. K. Cravens, who represents a company of Chicago capitalists, now has charge of the Briar Patch mine near Anwaria and is working it with a view of buying the property for his company. He has about seven hands at work in two places on the property and is highly pleased with results so far obtained. His company will likely buy the property and work it on a large scale.

G. W. Jenkins, J. B. Anderson and James Adams have formed a copartnership and commenced operating the Street mine again. This mine has been worked by various parties who, after reaching water and sulphurets had to abandon it as the gold could not be saved by our present process of mining here. Then a new shaft or incline would be sunk and the ore worked down to the water and sulphurets as before, in every instance paying well. So these parties are now engaged in a new shaft and new diggings.

The big tunnel down at the Hand was finished last Thursday. It is the largest and longest tunnel in the county and has cost a big sum of money as it had to be blasted from beginning to ending: It runs from the Yahoola to the Hand, a distance of 352 feet, through which will pass electric cars carrying the ore from the Yahoola to the plant. It is 10x10 feet and has timbers 10x12 inches four feet apart, and required more than ten weeks to finish it, driving from each side both day and night. The next thing to be done will be the placing of the cross ties and hewing the track.

We were shown last week a bottle of gold by Mr. Birch containing sixteen ounces, recently taken from the bed of the Chestate river near the mouth of Long Branch by his dredge boat at one clean up. It consisted of both fine and coarse gold and many fine nuggets of various sizes. He had an extra one which weighed twenty-three pennyweights and resembled the tap of an old fashion coffee mill and about as large. This boat is a wonderful invention. It saves from the finest of gold dust to any size except extremely fine. It requires ten men, including a watchman, to work it at its full capacity. And the beauty of it is when they come across a poor place in the river it is no trouble or expense to move in the better one.

Another New School House.

The public school at Long Tube will henceforth be known as Ivey School No. 11. The house has been completed and turned over by the trustees to the board of education of Lumpkin county. Mr. J. K. P. Head generously donated an acre of land where a beautiful new school house, 20x30, has now been seen, well painted, and makes a delightful impression on all who pass by it on the highway. Soon the new sign will be placed over the door and the school will fairly enter upon its career of usefulness. Everything is so different from what they were last fall when I saw the same teacher and children in a very uncomfortable house which was the best that could then be had. It had been raining heavily. The roof leaked badly and all were wet and chilled. I then resolved that a new school house should be built, and the result is the same teacher, Miss Lida Gam, has now a school house, which for beauty and comfort will vie with any in the county. The number of children at this school reaches about seventy.

The exercises of Friday last closed with a picnic at the spring in a shady grove, where all the people enjoyed themselves.

The patrons of this school are showing great interest in the welfare of the school, and the educational progress of their children. No school has exhibited a livelier disposition to obtain new books, and to carry out every order of the Board than has this school under Miss Gam's charge. Other schools are yet to be heard from. It is my intention to visit all the schools this fall, if I can. From every direction in the county comes information of increased attendance. Nothing has contributed more to this desired end than the new school houses. Of course, there has been something gained by employing some new teachers with advanced grades. There has been great improvement in the teachers generally. It is the intention of the Board to dispense with second and third grade teachers as quickly as possible. We want to send the very best teachers we have to remote and destitute schools. It is not good economy to have any but competent teachers over any of the schools of Lumpkin county. W. E. Pattee, President Board of Education.

The Plant is Coming.

The prospects for the power plant, Dahlonega railway and electric street railway system continue bright. A majority of the officers of the Consolidated Gold Mining Company of Dahlonega have been in the city this week, together with other capitalists who are large stockholders in this company. These gentlemen met in an informal

The Falling Leaves Give Warning of Winter

So the falling of the hair tells of the approach of age and declining power. No matter how barren the tree nor how leafless it may seem, you confidently expect leaves again. And why? Because there is life at the roots.

So you need not worry about the falling of your hair, the threatened destitution of youth and beauty. And why? Because if there is a spark of life remaining in the roots of the hair.

AYER'S HAIR VIGOR

will arouse it into healthy activity. The hair ceases to come out, it begins to grow, and the glory of your youth is restored to you.

We have a book on the Hair and its Diseases. It is free.

The East End Free.

If you are an invalid or suffer from the loss of the Vigor, you need not despair. There is a remedy for you. Write to us for a free copy of our book. It will tell you all you need to know. Address: Dr. J. C. Ayer, Lowell, Mass.

way, with the members of the city council Tuesday morning in the council chamber. They left with the clerk a copy of the franchise they will ask the city to grant them in event they meet with no unseen obstacles in the immediate future. This informal meeting was highly satisfactory to all parties. Their surveys have run several routes through and around the city. The old Price survey will be used for the Dahlonega line. All traffic for Dahlonega will be carried over it. The passengers will be brought through the city on a street car which will come up Main street and go out Oak and in to the street below Judge Winburn's. The other street car line will be run over the same track to the Hunt house; thence to Green street, and out Green to the river where the electric plant will be located. These are their present plans and we trust nothing will prevent their consummation. The money to execute these plans is here and has been for some time.—Eagle.

Deafness Cannot be Cured

by local application, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube gets inflamed you have a running sound or imperfect hearing, and when it is entirely closed deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition hearing will be destroyed forever. Nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness caused by catarrh that cannot be cured by Hall Catarrh Cure. Send for circulars, free. F. J. CHENEY & CO., Toledo, O. Sold by Druggists, 75c. Hall's Family Pills are the best.

APPLICATION FOR CHARTER.

Georgia, Lumpkin County: To the Superior Court of said county: The petition of W. W. Murray, J. H. Moore and J. F. Moore respectfully shows:

1. That they desire for themselves, their associates, successors and assigns, to be incorporated under the name and style of "The Pioneer Exploitation and Development Company."

2. The amount of capital to be employed by said corporation to be the sum of One Million Dollars all of which is to be actually paid in either in money or property before beginning business. Said stock to be divided into shares of one hundred dollars each.

3. The principal office of said corporation shall be at Dahlonega, Lumpkin county, Georgia, but petitioners pray for the privilege of establishing branch offices at such other points in the state of Georgia as the said corporation may seem advisable.

4. Petitioners pray to be incorporated for the term of twenty years with the privilege of renewal at the expiration of said term.

5. The object of the incorporation is pecuniary gain for its shareholders thereof and the business proposed to be carried on is taking and buying options, buying and selling mineral and other lands on commission or otherwise, developing mines and mineral properties, by prospecting, making assays of all kinds of ores and metals, erecting plants for the reduction of ores; developing water power, promoting all legitimate enterprises that will add to the general prosperity of the county.

6. Petitioners pray that they may be incorporated for the purposes above indicated and granted the right to buy, lease, rent, hold and sell real estate and mining and mineral properties; to erect mills and other machinery for the reduction of gold and other mineral properties. To construct canals, ditches or flume lines. To issue bonds and all other evidences of debt; and to be sued, have and to use a common seal and generally to have and to exercise such powers as are usually employed for the carrying out of the purposes of said corporation. Wherefore petitioners pray that an order be passed by the Honorable Court granting the prayer of this petition, which is made under and to be governed by the provisions of Section 2350 of the Code of Georgia of 1893.

And petitioners will ever pray.
J. H. Moore,
Attorney for Petitioners.
Filed in office August 22, 1899.
G. C. WALLACE, G. S. C.
Georgia, Lumpkin County.
I, G. C. Wallace, clerk of the Superior Court of Lumpkin County, do certify that the foregoing is a true copy of the original application for charter of "The Pioneer Exploitation and Development Company," now of file in my office.
Witness my official signature this August 23, 1899.
G. C. WALLACE,
Clerk Superior Court.

BIG FISH NOT YET ALL CAUGHT.

INVESTORS are respectfully invited to examine the Turkey Hill Gold Mines where an assay will be necessary, as the gold will show in abundance in the rock. Call at the premises or write to PACKARD & SOX, Half Way, Lumpkin county, Ga., or Sturges, Mich.

MICHIGAN COLLEGE OF MINES. A State Technical School. Practical work. Elective System. Summer term. Every graduate employed. For catalogues, showing occupation of graduates, address THE SECRETARY, Houghton, Mich.

Ever brought to Porter Springs at prices which will certainly suit the purchaser, either for cash or barter.

We will quote a few prices: Best extra No. 10 flour for a \$1.00. Good quality 10 lbs. for a \$1.00. A barrel 2 lbs. for 25c. Granulated Sugar 15 lbs. for a \$1.00. Light brown sugar 17 lbs. for a \$1.00. Lard 12 lbs. for a \$1.00. Everything else in proportion. Call and examine our stock and save money. We mean business. Highest market price paid for country produce.

Respectfully,
SMITH & BRO.

THE NUGGET.

DAHLONEGA, GA., AUGUST 25 '99.

Dahlonega is the place for the home seeker to locate.

Col. Charters will leave to-morrow to attend Rabun Superior court which convenes Monday.

A few weeks ago green beans sold at \$1.50 per bushel. Now they are going at 25 cents and dull at that.

Postmaster Chapman has moved back to Dahlonega and we expect that Jay post office will soon "go dead" again.

Ben Gaillard, after being confined to his bed for several months with fever, was able to be out riding last Saturday.

The carpenters saw and hammer still keeps in motion demonstrating that prosperity has reached Dahlonega.

W. W. Crisson, who has been down in Paulding county for some time fitting up a stamp mill, came home last Saturday to spend a few days.

J. V. Harbison, after an absence of about ten months in Kingman, Arizona, returned to Dahlonega last Friday to the delight of his many friends.

A. S. Whelchel, who was up from New Bridge the other day says if he doesn't sell his town property in rear of N. E. Whelchels that he will put up a residence or two on it.

Miss Lila Cain's picnic was attended by Col. W. P. Price last Friday out in the country. The Colonel loves to talk to school children and will never grow too old to enjoy these occasions.

A portion of Mr. Scott's mechanics are still at work on Crane's Hill preparing timbers for the chlorination plant down at the Hand while the others are engaged down there putting them in position.

Solicitor and Mrs. W. A. Charters are entertaining a delightful house party. Their guests are Mrs. B. J. Davis, Miss Susie Davis, Mrs. R. P. Keith and Mrs. Ira E. Fort, of Atlanta, and Mrs. Walter S. Wilson, of Savannah.

Mr. West from South Carolina is here looking out for a permanent home. He says that he expects to buy some land and go to farming. He has traveled through Texas recently and visited many other states and says that this climate suits him better than any he has yet seen.

Mr. Healand who moved from this county to Jackson some years ago, was up one day last week very much discouraged. He said that he was in the "dry streak" and planted his corn in the dust and laid by in the dust and will make only a few bushels of corn. The rain came too late to do him any good.

G. McGuire became the possessor of the Hughes corner, where he occupies, last Friday. He says that he will tear away the fence and porch which are on the street now in front of the dwelling and add such improvements as is necessary to make the building comfortable. He expects to move his family there and live and do business under the same roof.

Improvements are still going on in Dahlonega and quite a number of new buildings are going up just now. Dirt was broken on the foundation of the \$8,000 Bostwick Hall last Tuesday. Jap Williams has just completed a new residence and commenced another. G. H. McGuire, R. C. Thomson and M. G. Head are building new residences. Work is progressing in the Presbyterian church and additions are being made to the parsonage and old Signal office besides various other improvements at other places. More improvements have already been made in Dahlonega already this year than have been made in twenty-five years before. Many more buildings will be erected before the year ends.

No eggs in market.

Deputy postmaster Price is in Atlanta.

Dahlonega already has two barber shops and is soon to have another.

McIntosh find a ready sale in Dahlonega now at better prices than were ever known here at this season of the year.

A gentleman was here last week from Clarksville endeavoring to secure a vacant business house to open out a large furniture store.

If nothing unforeseen occurs before the crops mature there will be plenty of supplies made in Lumpkin county for both man and beast.

Readers & Sons of Dahlonega now have the contract for carrying passengers to and from Porter Springs the rest of the season, having commenced last Wednesday.

Clerk Wallace thinks of moving his office down in the grand jury room. This will necessitate the town council to get another place for the Mayor to run the wheels of justice in.

There was preaching last Sunday at Siloam. It was intended by the minister to commence a protracted meeting but as some six drunk persons attended the opening of the meeting he decided to close it until liquor gets scarcer in that locality.

Bob Long, who killed Clark in this county last fall and for whom a good size reward has been offered, was heard of in Fannin county a few days ago. He was found at a man's spring house and when he was approached he drew his Winchester, told the party to stand back and he returned to the woods.

A. A. Rayle of Lexington, spent several days in Dahlonega last week looking for a location with a view of moving here and going into business the first of next year. Good schools here is the cause of his desire to locate with us. He left for his home Saturday with the intention of returning some time soon in the future.

It is no longer doubted that the graded school here will be largely attended. Prof. Martin, the principal, has been here for several days getting acquainted with the people of our town and preparing to begin business. He is a high toned gentleman and has gained the respect of all who have met him since his coming to Dahlonega. One hundred and nineteen tickets were issued during the first three days of this week and other pupils are still to come.

Judge Estes, after returning to Gainesville from Dahlonega a few days ago expressed himself as being favorably impressed with the improvements that have been made on the roads in this county since his last visit to Dahlonega, but was so displeased with them in Hall county that he called the grand jury special attention to their bad condition last week, telling them that the mud holes must be filled up and all the public high ways put in good condition in that county, otherwise some one would be punished.

Five weeks ago a man named Abbott who used to live out in Davis' district, left James Grindles, his place of abode in the upper edge of this county, to go to Chambers' saw mill in White. They all got drunk while he was there and just about dark they had a sham battle among themselves and one man remarked that he aimed to get rid of Abbott as soon as he cut the other fellows throat. So Abbott is gone and has not been heard of since and it is thought by many that he was killed and hid. A searching party of twenty-five went out last Saturday to see if they could get any trace of him but failed. His mule is still at Mr. Grindles. Tuesday warrants were sworn out against Marion Bird, Andrew Griffith and Dyre Black, all of White, who were at the mill at the time, charging them with killing Abbott. At last accounts Bird was the only one that had been arrested.

The Nugget office is the place to get your blank options, deeds, etc. Prof. J. W. Boyd has already commenced improving his premises.

Prof. J. S. Stewart and wife have been spending some time at Oxford, Ga.

Rev. J. W. Boyd interested a large congregation with a splendid sermon last Sunday night at the Methodist church.

Hughes Moore, after spending a week or so in Dahlonega, returned to Lytle, Ga., last Friday and resumed his work for Uncle Sam.

Aleck McAfee, after an absence of some time from Dahlonega returned home last week on a short visit accompanied by Lammarr Erwin.

The owner of this paper told us that he was very tired of loaning it but hated to say anything to you. Don't be mistaken about the matter. This means you.

Your attention is called to Packard & Son's ad. elsewhere if you desire to invest in good mining property. There is no better in Lumpkin county.

Dahlonega doesn't present a dull appearance now like she did this time last year, and men are paid money for labor giving no one any excuse for not paying their just debts.

Blackberry wine has a wonderful effect on some men. Last Sunday one fellow who was under the influence of this beverage had his shoes off and was trying to climb one of the court house columns backwards. Being more than fifty years of age he was most too old and stiff to succeed.

Calvin Stover, who works down at the Hand, is one of the stoutest men of his age that we know of. He is more than 70 years of age and keeps up his end of the row on all kinds of hard work down there. He used to be consumptive but cured himself with herbs that grow in this country. Now he can run, skip and jump almost as high as any of the boys. Oh what a glorious country this is which produces medicine that will make old men young again. All who are in search of a good healthy climate should turn their course in this direction.

Mr. Clark of Cleveland, Ohio, who claims that he can discover any kind of a mineral vein or bed of ore with a little magnetic machine which he carries, has been in Dahlonega this week. After a test he stated that there was a gold vein on the public square in front of the court house here and runs under Price & Charters' office. The gentleman has been making some tests on property in Auraria district since his arrival and located some veins he says, and it will not require much time for the possessor of the property to ascertain whether Mr. Clark is correct or not.

Last Saturday Will McDonald, residing out in the western part of the county went down to the mines to look about. While standing near the foundation of the plant Superintendent Burns asked McDonald if he wanted anything or wanted to see anybody, who replied that he didn't. "Get away from here," commanded Mr. Burns. McDonald replied that he would when he got ready. The words had scarcely escaped from McDonald's lips when the superintendent gave him a kick or two and told him to light out. McDonald picked up a rock but failed to throw it. He then came to town and soon returned to the mines supposed to be armed when the marshal was telephoned for. McDonald came back to town and went to the marshal as soon as he found out that he was wanted and submitted. He was then tried before Mayor Price and fined one dollar and cost. The defendant then placed a warrant in sheriff Davis' hands charging the superintendent with an assault, who was tried before Squire Allen and acquitted on the grounds that Burns had a right to clear the premises under his control of trespassers.

The graded school grounds are being cleaned up and put in good shape this week.

Nearly if not quite all of Cherokee's students at Dahlonega will return this fall, probably increased by the entrance of several new ones.—Advance.

Crown Mountain is not only valuable for gold but contains splendid rock for building purposes. Mr. George is getting his foundation rock for the Bostwick Hall off of it.

Those who prophesied the second coming of Mr. Main from London on the 18th inst. were badly disappointed for he didn't arrive. The options on a part, if not on all the lands, he had in this county were out on that day.

Kelus Palmour, col., died in Dahlonega last Tuesday night after an illness of only ten days. He had been raised on the farm and not being used to public works overworked himself down at the Hand mine which caused his death.

Merchant J. F. Moore and Judge Tate are certainly making the town lot opposite G. McGuire's store, owned by the Hughes estate, bring its worth. They commenced bidding on it this week at \$500 and have already run it up to \$800. This is really more than it is worth but both have a desire to own it.

It seems that the Consolidated Company will have to fix the fords so as to cross the Chestatoe and Chattahoochee rivers between here and Gainesville with the twelve ton piece of machinery intended for the chlorination plant at the Hand as both Judge Tate of Lumpkin and the authorities of Hall say that it cannot be brought over the iron bridges of their respective counties.

A man who used to love to tip the glass as well as any one living was telling us the other day why he quit drinking. He said while he was on a drunk some years ago he ate a nicely cooked hogs ear which he was not fond of when sober but used it on this occasion just to fill up. Some five or six hours afterwards while taking another drink he vomited and up came the hogs ear looking almost as blue as indigo, and this was his last drink. Those who want to quit drinking and have not means to go to the Keeley Institute can remain at home and become a sober man by eating a hog's ear.

Ben Clark, who resides up in Jones' Creek district, has been giving the road commissioners trouble by failing to perform road work. They met and fined him but could get no bailiff to arrest him. They had no such officer in their district and could "borrow" none. This caused Ben to rejoice. The commissioners were determined to have the warrant against the defaulter executed and sent for the sheriff, who went up one day last week and arrested Ben and carried him before them. He begged off from paying a fine by agreeing to perform such road duty as they required, and all trouble in this line is at an end up that way now.

Uncle Fred Boatfield, was out in town last Tuesday for the first time in six weeks and paid the Nugget office a pleasant visit during the day. Mr. Boatfield came to Dahlonega in 1835 with his parents from Philadelphia, Pa., and has been a citizen of the town ever since. He is now in his 66th year. His parents came here from Philadelphia in a carriage, there being no railroad then, and were one month making the trip. Mr. Boatfield arrived on Sunday and says that the stores and bars were open and the town was full of people drinking and fighting. The Indians were here then. While going out to the cemetery that afternoon with his parents he saw eight or ten fights on the way. At that time the cemetery contained less than ten graves. There are but few people in Dahlonega that were here at the time Mr. Boatfield arrived. He is one of less than a half dozen that is left to tell the tale.

R. C. Thomson, secretary and treasurer of the Consolidated Co., was absent a day or two last week on business.

Miss Susana, daughter of Joseph McDougald, of Lumpkin county, was married last week to Mr. Welborn Smith, of Fannin.

Lee Pitner has been here several days smoking, chatting and talking with the boys. He can't talk with the ladies because he is married and his home is in Atlanta.

Mr. Welch, of North Carolina, who represents the Mecklenburg Iron Works spent several days in Dahlonega last week taking orders from some of our mining men.

Smith Bros, Porter Springs, want your chickens, matters not how many you have. No use to carry them to Gainesville when you can get better prices at Porter.

Charley Fitts has twin calves at his house—both heifers. There is much more profit in twin calves than twin children at a man's house and Charley should feel like rejoicing.

Photographer G. D. Bruce lost one of the legs of his tripod last Friday while on his way to the picnic. Any one finding it will please return it to his gallery and be rewarded.

Lum Hamilton, col., is a thorough Odd Fellow now. He owns the carpet which used to belong to the white lodge here and has it spread on his floor. It contains the hour glass, all seeing eye and many other representations not to know the public and cost at first forty dollars.

There is an abundance of good timber in this section to manufacture furniture, ax handles, spokes, hubs and many other articles that are bought and hauled here from other places. Those contemplating going into a business of this kind should come and make an investigation and see if we are not correct.

Sheriff Davis and bailiff Rickets went over into Fannin county last Saturday in search of Coon Long who is wanted in Lumpkin for misdemeanor. They were at a baptizing the next day and so was the defendant but neither one of the officers knew Long and he got away before they succeeded in getting him spotted.

Judge Tate walked from his residence to his office last Monday for the first time since being sick. In a short while he will have other surveys made on the Bearden's bridge road he says, work it out and put the same in good shape. The last grand jury recommended much of this road be put on better ground and he intends doing it.

W. T. Anderson, of Turnerville, was awarded the contract of repairing the parsonage, which will soon be in a condition to keep minister Edwards dry when it rains. It's true that he is a Methodist but there is no member of this denomination that likes to be sprinkled every time it rains. We are glad to see these improvements for they are not being made before needed.

A rat and a rattlesnake pilot were found in Mr. McAfee's well the other day while it was being cleaned out. It is supposed that the rat was running from the snake and lit off into the well to make its escape when it was followed. It is very unpleasant to drink water off of a rat but when it comes to both a rat and a snake and the latter being poison it is worse. Wells should be cleaned out often.

Deputy Marshal Grizzle went up to Chostatee district one day last week and destroyed a large illicit distillery near Caleb Senbolls. In pouring out the low wine he found a lot of roots and one stuff and another in the bottom of the keg which is often used by blockaders to make the liquor stronger so they can water it and make a larger number of gallons. This is easily done but when a fellow drinks too much of it he will become insane for a while and believes that the devil is taking off the top of his head with a wrench.

A protracted meeting commenced at the M. E. Church next Monday night.

Henry Williams and Piercean Edmonson paid one dollar each for a fight Tuesday night.

Capt. Ingersoll has purchased the Chatman lot adjoining his residence lot on main street.

John Adams, of Martin's Ford district, was bound over Tuesday for illicit distilling.

Miss Lizzie Pett, of Atlanta, has been the guest of Mr. and Mrs. W. H. McAfee during the past week.

Jacob Dowdy in gathering his small crop of peaches this week didn't forget to divide with ye editor.

The machinery for the chlorination plant down at the Hand is being received as fast as teams can haul it.

Smith Bros, at Porter Springs, is the place to get your flour and groceries at Gainesville prices with freight added.

Capt. F. W. Hall is preparing to build a double story storage building on his lot in front of the new Baptist church 30x50.

About \$35 was realized from the box party Tuesday night which was had for the benefit of the Presbyterian church now being erected.

From the sign in the court house Monday morning some fellow has decided to quit drinking. He broke his bottle and then yomited.

The miners' tents down about the Hand look very much like war times. They cannot get any houses and have to use cloth instead which does very well this hot weather.

Julia and Flora Honson were arrested here by sheriff Davis and carried back to Gainesville this week on warrants sent up from that place charging them with keeping a disorderly house.

Attention is called to the card of Miss Georgia Barnes who has just opened out a hotel and restaurant in the old Drag Store corner. The building has been renovated from top to bottom and is well furnished and is a comfortable place for the traveling public.

A 65 pound water melon, raised by John D. Palmour, of Dawson county was shipped to Gov. Candler the other day by A. R. Smith of Gainesville. This proves that Dawson's broad fertile fields can not be excelled in the production of fine melons by any county in upper Georgia. But when it comes to the production of gold Lumpkin county stands in the lead.

There will be quite a number of business changes in Dahlonega next week. Messrs. H. D. Gurley and M. G. Head will go out of business and J. H. McKee and M. J. Williams & Son will open out stores. Mr. Brooksher will move into the store house now occupied by Mr. Head and Mr. McKee will occupy Mr. Gurley's stand. The Consolidated Company will move its grocery department into the Brooksher store room and Williams & Son will open out next door below Wm. Jones' store.

Solicitor Charters returned from Gainesville last Saturday where he had been attending a special session of Hall Superior court convened Wednesday of last week by Judge Estes to investigate the lynching of St. Smith, which occurred in the jail of that county a few weeks ago. The grand jury after being in session three days returned true bills against Taylor Hamilton, Mark Bell, Ollie Bell, Charlie Tanner, Henry Towery and Tom Bryson for the murder of St. Smith. Hamilton, Bryson and Tanner are in Atlanta jail but the others left out some time ago for parts unknown. Ollie Bell was in Dahlonega until the afternoon of the day before Smith was killed that night and remarked in merchant McGuire's store that day that Smith would be taken care of or words to that effect, but no one had any idea that Smith would be killed so early.

The Hebrews have a saying that "He who does not bring his son up to some business makes him a thief." Idleness they look on as the ground of all evil, whether public or private; for the mind of man will be employed, and rather than do nothing, it will work mischief.

The Parthians were such enemies to idleness that they did not suffer their children to eat until they had gone through some exercise, or done something which might contribute to the health of their bodies or improvement of their minds.

Solon introduced a severe law into his common work against idleness, and the judges were very vigilant in inducing into the life and manner of every particular subject, and in seeing the law put into execution.

How happy would it be for us if we had laws against idleness, and which should oblige every man to give an account of his time, and be answerable for his way of life! How many cheats and sharpers who live by defrauding the unwary public would be obliged to lay aside the name of gentleman and work for their livelihood in an honest manner.—Marietta Journal.

Will it be, Bryan and Van Wyck?

Two recent events may have an important bearing on the race for the democratic nomination for the presidency—one the publication of the report that Mr. Bryan refused to vote for the late Mr. Crisp for speaker of the house, and the other Mr. Richard Croker's declaration in favor of Bryan. Those in charge of the Van Wyck boom claim that they are receiving letters from the south daily declaring against Bryan on account of his refusal to vote for Judge Crisp, on the grounds that he was an officer in the Confederate army. They claim that this bit of history, in connection with the fact that Van Wyck is of Southern birth, will help the latter and hurt Bryan. Many of the people of the south are satisfied with Mr. Bryan's explanation of his vote against Crisp in the caucus, and refuse to believe that Bryan did not vote for Crisp for the reason assigned. There is a growing sentiment in the south for Bryan for president and Van Wyck for vice president. Mr. Croker's declaration for Bryan may mean that the New York man will be content with second place on the ticket.—Columbus Enquirer-Sun.

A recent telegram from Springfield, O., says: Prominent colored Masons of Ohio met in this city tonight and expressed dissatisfaction with President McKinley for his silence on the lynching question and his refusal to commission colored officers. They threatened to remain away from the polls in abeyance at a coming election and appointed W. H. Parham to distribute an address to colored voters, setting forth the above complaints.

One of the most remarkable and valuable cisterns in the world is located at Asti, California. It is lined with concrete and has a capacity of 500,000 gallons. Its contents are wine, not water. Wine thus stored in a cistern in great bulk is said to improve in flavor.

Doctor Ends—There is nothing serious the matter with Freddie, Mrs. Blakely. I think a little soup and water will do him as much good as anything. Mrs. Blakely—Yes doctor, an' will I give it to him before or after his meals?

Now the Kansas farmers are complaining that they have made so much corn that they will have to go to the expense of building more cribs to house it.

Arrangements are being made to remove the Spring Vale cotton mills, Biddeford, Me., to Fort Valley, Ga. The plant has 10,500 spindles, and 300 looms.

The Time Comes

to every elderly woman when an important functional change takes place. This is called "The Change of Life." The circulatory system undergoes a change. Dreadful diseases such as cancer and consumption are often contracted at this time.

McELREE'S Wine of Cardui

strengthens and purifies the entire system, and brings the sufferer safely over these pitfalls. Its effects have been wonderful. It is good for all menstrual troubles, but is especially recommended at this time. Ask your druggist for the famous Wine of Cardui. \$1.00 a bottle.

For advice in cases requiring special directions, address the "Ladies' Advisory Department," The Chattanooga Medicine Co., Chattanooga, Tenn.

THOMAS J. COOPER, Tupelo, Miss., says: "My sister suffered from irregular and painful menstruation for years. Could not relieve her. Wine of Cardui entirely cured her and also helped my mother through the change of life."

APPLICATION FOR CHARTER.

Georgia, Lumpkin County: To the Superior Court of said county: The petition of J. F. Moore, John Huff, Joseph B. Clements and J. H. Moore, of the town of Dahlonega and state of Georgia, and W. W. Murray, of Huntington, Tenn., respectfully shew:

1. That they desire for themselves, their associates, successors and assigns, to be incorporated under the name and style of "The Crown Mountain Gold Mining and Milling Company."

2. The amount of capital to be employed by said corporation to be the sum of Two Millions Dollars all of which is to be actually paid in either in money or property before beginning business. Said stock to be divided into shares of the par value of one hundred dollars each.

3. The principal office of said corporation shall be at Dahlonega, Lumpkin county, Georgia, but petitioners pray for the privilege of establishing branch offices at such other points in the state of Georgia as the said corporation may seem advisable.

4. Petitioners pray to be incorporated for the term of twenty years with the privilege of renewal at the expiration of said term.

5. The object of the incorporation is pecuniary gain for its stockholders thereof and the business proposed to be carried on by it is the operating and mining for gold, silver and other precious minerals and metals.

6. Petitioners pray that they may be incorporated for the purposes above indicated, and granted the right to buy, lease, rent, hold and sell real estate and mining and milling properties; to erect mills and other machinery for the reduction of gold and other minerals or metallic ores; to construct canals, ditches or flume lines. To issue bonds and other evidences of debt; sue and to be sued; have and to use a common seal and generally to have and to exercise such powers and to do the purposes of said corporation.

Wherefore petitioners pray to be made a body corporate under the name and style aforesaid, and that a charter be granted them conferring the rights, privileges and powers herein set forth and petitioned for.

J. F. MOORE, Attorney for Petitioners.

Filed in office August 1, 1890.

G. C. WALLACE, C. S. C. Georgia, Lumpkin county.

I, G. C. Wallace, clerk of the Superior court of Lumpkin county, do certify that the foregoing is a true copy of the original application for charter of "The Crown Mountain Gold Mining and Milling Company," now of file in my office.

Witness my official signature this Aug. 1, 1890. G. C. WALLACE, clerk Superior court.

GOLD MINES

FOR SALE IN VICINITY OF DAHLONEGA.

"The Jumbo Mine." One of the largest bodies of free milling ore in the State. With it the best water power in the county.

"The Mary Henry Mine." A sulphuretted proposition. The colored McEater and Henning veins are on the property as well as two other equally as good. Water power and mill with it.

"The Crown Mountain Mine." The largest and richest saprolite belt in the county. The highest point by 100 feet on the well known "Findley Ridge."

These properties can be had at reasonable prices or an interest in them given for operating and developing them. J. H. MOORE, Office in rear of J. F. Moore's Store.
